

## Heavy Duty Surface Oxidation Event Marquee Tent Aluminum Alloy A Frame Marquee For Sale

### Our Product Introduction

#### Basic Information

- Place of Origin: Guangdong
- Brand Name: Tendars
- Certification: ISO9001, SGS, Coc, CE
- Model Number: Big tent
- Minimum Order Quantity: 25 square meters
- Price: Reconsideration
- Packaging Details: 1, The aluminium frame structure packed into the bubble film 2, the pvc fabric roof cover and sidewalls are packed into the PVC fabric carry bag; 3, Hardware packed into the box.
- Delivery Time: 18days or To be negotiated
- Payment Terms: L/C, T/T, Western Union, MoneyGram
- Supply Ability: 50000 Square Meters per Month

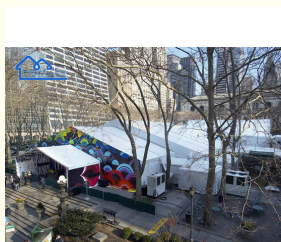

#### Product Specification

- Features: Water Proof, UV Resistance, Fire Retardant(DIN4102,B1,M2)
- Product Name: A Frame Marquee
- Place Of Origin: Guangdong, China
- Surface Treat Method: Surface Oxidation
- Tent Roof Fabric: 850g/sqm, 750g/sqm, 650g/sqm
- Warranty: 1 Years
- Application: Wedding, Party, Event, Ceremony Hall And So On
- Fabric Color Option: White, Blue, Yellow, Red, Transparent Or Customized

#### Here's an overview of the principle:

**Sturdy Structure:** A-frame marquees feature a robust frame constructed from durable materials such as aluminum or steel. The frame consists of upright poles connected by crossbars and diagonal braces, forming a rigid and stable structure capable of withstanding various weather conditions.

**Pitched Roof:** The most recognizable feature of A-frame marquees is their pitched roof, which slopes down from a central peak towards the sidewalls on either side. This design allows rainwater, snow, and debris to run off the roof easily, preventing water pooling and ensuring proper drainage.

**Spacious Interior:** A-frame marquees offer a spacious interior with ample headroom, thanks to their peaked roof design. The high center peak creates a feeling of openness and allows for maximum airflow and ventilation within the tent, enhancing comfort for event attendees.

**Modular Design:** A-frame marquees are often designed with a modular framework, allowing for easy assembly, disassembly, and customization. The modular components can be combined to create tents of various sizes and configurations, making them adaptable to different event requirements.

**Versatility:** A-frame marquees are versatile and suitable for a wide range of outdoor events, including weddings, parties, corporate functions, festivals, trade shows, and exhibitions. They can be set up on different types of terrain, including grass, gravel, concrete, and asphalt.

**Customization Options:** A-frame marquees can be customized to suit specific event themes, preferences, and branding requirements. Options for customization include choosing canopy colors, adding sidewalls for privacy or weather protection, and incorporating branding elements such as logos, banners, and signage.

**Weather Resistance:** A-frame marquees are designed to provide reliable protection against various weather conditions, including rain, wind, sun exposure, and moderate snow loads. The pitched roof design helps to shed water and prevent water leakage, while the sturdy frame ensures stability and durability in windy conditions.

**Ease of Installation:** Despite their robust construction, A-frame marquees are relatively easy to install compared to more complex tent designs. The modular components can be assembled quickly using simple tools and techniques, allowing for efficient setup and dismantling before and after events.

#### FAQ:

##### Q1. You are manufacture factory or trading company?

We are manufacture factory. And you are welcomed to visit us at any time. The quality control flow and sales team will show you our professionalism. Also you will can get best and most competitive price after visiting us.

##### Q2. Is your price competitive compared with other companies?

Our business objectives are to give the best price with same quality and best quality with the same price. We will do everything we can to reduce

your cost and guarantee you get the best product that you paid for.

**Q3: Can you print our logos on event tent for sale?**

Yes. Customized logos can be printed on the tent fabric.

**Q4: Is your tent strong and stable enough? How about the wind loading?**

Yes. The main frameworks (upright support and roof beam) are manufactured with high impact extruded anodized aluminum (6061/T6), so our tent structure is safe and strong enough to resist wind up to 100 km/hr.

**Q5: Do you accept container loading inspection?**

You are welcomed to send an inspector, not only for the container loading, but any time during the production time.

**Q6: Does your tent be able to installed repeatedly?**

What is the life span? Sure, our tents can be assembled and dismantled easily and repeatedly with small transportation size. The lifespan of aluminium framework can reach 15-20 years, and 5-8 years for PVC fabrics depending on different conditions of usage.

**Q7: How long is the warranty period?**

Guarantee is one year. During the warranty period, we shall repair or replace the damaged part accordingly because of any damage due to quality problem.

**Q8: How is the quality of the product guaranteed?**

Our products will be strictly tested by the quality inspection department before leaving the factory, and each product will be strictly controlled to ensure product quality.
