BT12	12m	4m(5m/6m)	5.8m(6.8m/7.8m)	5m	150*120*3mm
BT15	15m	4m(5m/6m)	6.2m(7.2m/8.2m)	5m	150*120*3mm
BT18	18m	4m(5m/6m)	6.7m(7.7m/8.7m)	5m	203*112*4mm
BT20	20m	4m(5m/6m)	7m(8m/9m)	5m	203*112*4mm
BT25	25m	4m(5m/6m)	7.8m(8.8m/9.8m)	5m	203*112*4mm
BT30	30m	4m(5m/6m)	9m(10m/11m)	5m	256*111*4.5mm
BT40	40m	4m(5m/6m)	10.6m(11.6m/12.6m)	5m	300*125*6mm
BT50	50m	4m(5m/6m)	12.2m(13.2m/14.2m)	5m	350*127*11mm

The length can be extended by 5m bay such as 15m, 20m, 30m, 40m... Customized size is available.

Main Profile	Material: Hard pressed extruded aluminium 6082-T6, 6061/T6 Features: Stainless
Cover	Material: Double PVC-coated polyester textile, 750g-900g/m Features: Waterproof, flame retardant to DIN4102 B1, M2, CFM, UV resistant
Eave Connection	Hot-dip Galvanized twin steel plate
Wind Loading	100km/hour

Here are the primary materials typically used in the construction of these tents:

Frame Material:

Aluminum: Aluminum is a lightweight yet sturdy material commonly used for the framework of canopy prefab house marquee tents. It offers excellent strength-to-weight ratio, corrosion resistance, and durability, making it ideal for outdoor applications.

Steel: Steel frames are also used in canopy tents, especially for larger or more heavy-duty structures. Steel provides greater strength and rigidity compared to aluminum but may be heavier and more susceptible to rust if not properly coated or treated.

Canopy Fabric:

PVC-Coated Polyester: The canopy fabric of canopy prefab house marquee tents is often made from PVC-coated polyester. This material offers excellent waterproofing, UV resistance, and durability, making it suitable for outdoor use in various weather conditions.

Vinyl: Some canopy tents may use vinyl fabric for the canopy, which provides similar properties to PVC-coated polyester, including waterproofing and UV resistance. Vinyl is known for its strength and longevity, making it a popular choice for commercial-grade tents.

Canvas: In some cases, canvas fabric may be used for the canopy of canopy tents, particularly in more traditional or rustic designs. Canvas offers a natural look and feel, as well as breathability, but may require additional treatment for waterproofing.

Sidewall Material:

PVC-Coated Polyester/Vinyl: Sidewalls of canopy prefab house marquee tents are often made from the same PVC-coated polyester or vinyl fabric used for the canopy. This ensures consistency in weather resistance and durability throughout the tent.

Transparent PVC: For tents with clear sidewalls or windows, transparent PVC material may be used. This allows natural light to enter the tent while still providing weather protection.

Fasteners and Connectors:

Stainless Steel: Stainless steel fasteners and connectors are commonly used in canopy prefab house marquee tents for their corrosion resistance and durability. They ensure secure connections between frame components and fabric attachments.

FAQ:

What are the advantages of using a canopy prefab house marquee event tent?

Some advantages of using a canopy prefab house marquee event tent include versatility, portability, quick assembly, customization options, weather protection, and temporary installation. These tents can be used for various outdoor events such as weddings, parties, corporate gatherings, exhibitions, and more.

How do I set up a canopy prefab house marquee event tent?

Setting up a canopy prefab house marquee event tent involves assembling the framework, attaching the canopy roof and sidewalls (if applicable), and securing the tent to the ground using stakes or weights. Detailed assembly instructions are typically provided by the manufacturer or rental company.

Are canopy prefab house marquee event tents suitable for different types of events?

Yes, canopy prefab house marquee event tents are versatile and can be used for a wide range of events, including weddings, parties, corporate gatherings, trade shows, exhibitions, concerts, festivals, and more. Their adaptable design allows them to accommodate different event sizes, layouts, and themes.

Can I customize my canopy prefab house marquee event tent?

Yes, canopy prefab house marquee event tents offer customization options to suit your event's theme, branding, and preferences. You can choose from various canopy colors, sidewall configurations, entrance designs, lighting, flooring, and interior décor options to create a personalized and memorable event space.

Do canopy prefab house marquee event tents require permits or approvals?

Depending on your location and the size of the tent, you may need permits or approvals from local authorities or venue owners. It's essential to check with your event planner, rental company, or local authorities to understand any regulations or requirements for tent installations.

How long does it take to set up and dismantle a canopy prefab house marquee event tent?

The setup and dismantling time for a canopy prefab house marquee event tent depend on factors such as the size of the tent, site conditions, and complexity of the installation. Professional tent rental companies typically handle setup and dismantling efficiently, allowing you to focus on other event preparations.
