Optional Accessories	PVC Windows, Glass door, Anchoring, Rain gutter, Hard walling system, Lining and Curtain, Flooring system, Glass walling system,Weight Plate, Hard walling system			

Details:

Sloped Roof Design: Waterproof marquee tents typically feature a sloped roof design. This design allows rainwater to run off the canopy rather than pooling on top, which could lead to sagging or leaking. The angle of the roof ensures efficient drainage, directing water away from the tent and preventing accumulation.

Water-resistant Zippers and Fasteners: To maintain the tent's waterproof integrity, water-resistant zippers and fasteners are often used in critical areas such as door openings and windows. These zippers are designed with waterproof coatings or flaps to prevent water from seeping through the zipper teeth and entering the tent.

FAQ:

1.How big a tent do i need ?

Tent size depends on the number of people/area you want to cover.Normally,we calculate 1-1.5sqm per person.

2.Our MOQ?
