30m	4m	8.8m	113*259	5m
40m	4m	10.5m	120*300	5m

Details:

Features of these tents:

Waterproof Materials: The primary feature of waterproof event wedding tents is their use of high-quality waterproof materials for both the canopy and sidewalls. These materials, often PVC-coated polyester or vinyl, are designed to repel water effectively, keeping the interior dry even during heavy rain.

Seam Sealing: To further enhance waterproofing, event wedding tents are equipped with sealed seams. This involves using waterproof tapes, adhesives, or heat-sealing techniques to reinforce the seams where different panels of fabric are joined together. This prevents water from seeping through the stitching and ensures complete protection from leaks.

Sturdy Frame Construction: Waterproof event wedding tents feature sturdy frame construction made from materials like aluminum or steel. The frame provides structural support for the tent and ensures stability even in windy conditions. Additionally, the frame is usually rust-resistant to prolong its lifespan.

Optional Flooring: Many waterproof event wedding tents offer optional flooring solutions to enhance comfort and aesthetics. This can include options such as wooden or carpeted flooring, which not only provide a stable surface for guests but also elevate the overall ambiance of the tent.

FAQ:

1. Are you tent factory?

Yes, we are professional tent manufacturer in Guangdong of China, close to Shanghai and Yiwu .We assure you our prices are based on factory.

2. What is the MOQ of the tent?

One Set.

3. What size tent and what types do i need?

Tent size depends on the number of people to accommodate or the area you want to cover. In our factory, your choice can be 3 meter to 50 meter on width. For tent types, contact us with detailed requirements. We will send you our professional solution.

4.What is the production time for standard tent?

25-30days after deposit confirmed.

5.What's the lifespan of your clear span structure tent?

In the reasonable using, the lifespan of the aluminum alloy can last over 10 years and the PVC cover is more than 7 years.

6. Can your tent be relocated?

All our tent structures is designed into relocatable construction. For the seasonal and regional reason, you can dismantle, store or remove the tent to other location.
