

## Aluminum Warehouse PVC Roof Cover Marquee Event Tent For Wedding, Party, Warehouse, Etc

### Our Product Introduction

#### Basic Information

- Place of Origin: Guangdong
- Brand Name: Tendars
- Certification: ISO9001, SGS, Coc, CE
- Model Number: Big tent
- Minimum Order Quantity: 25 square meters
- Price: Reconsideration
- Packaging Details: 1, The aluminium frame structure packed into the bubble film 2, the pvc fabric roof cover and sidewalls are packed into the PVC fabric carry bag; 3, Hardware packed into the box.
- Delivery Time: 18days or To be negotiated
- Payment Terms: L/C, T/T, Western Union, MoneyGram
- Supply Ability: 50000 Square Meters per Month

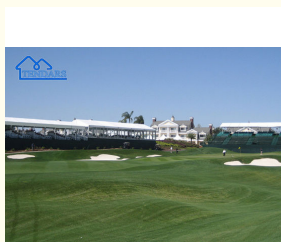

#### Product Specification

- Product Name: Aluminum Marquee Event Tent
- Fixing Solution: Expansion Bolt
- Wind Load: 80-100km/h
- Frame Material: Hard Pressed Aluminum Alloy T6061/T6
- Cover Material: 850g/sqm Double PVC-Coated Polyester
- Snow Load: 75kg/Sqm
- Door: PVC Door, Glass Door, Aluminium Door
- Usage: Event, Wedding, Party, Warehouse, Etc

15x30	4	166x88x3	450	380-450 Peoples
20x40	4	112x203x4	800	500-600 Peoples
30x50	4	120x250x4	1500	1200-1500 Peoples
40x60	6	120x300x5	2400	1500-1200 Peoples

#### Here's an overview of the principles involved:

**Aluminum Framework:** Aluminum is chosen for its lightweight yet sturdy properties, making it an ideal material for constructing the frame of the tent. The framework typically consists of aluminum poles or beams that are interconnected to form the structure of the tent.

**Modular Design:** Aluminum marquee event tents are often designed with a modular structure, allowing for easy assembly, disassembly, and customization. The modular design facilitates scalability, enabling the tent to be adjusted in size to accommodate different event requirements.

**Tensioned Fabric Cover:** The aluminum framework supports a tensioned fabric cover, usually made of materials like polyester or PVC-coated polyester. The fabric cover is stretched tightly over the framework, creating a taut and weather-resistant enclosure.

**Stability and Durability:** The aluminum framework provides stability and durability to the tent structure, capable of withstanding various weather conditions, including wind and rain. Additionally, aluminum is resistant to corrosion, ensuring the longevity of the tent even with repeated use.

**Versatility and Customization:** Aluminum marquee event tents offer versatility in design and customization options. They can be configured with different sidewall options, entrances, windows, and additional features to meet the specific needs of the event, such as lighting, heating, or air conditioning.

**Portability and Transportability:** Due to the lightweight nature of aluminum and the modular design of the tent, aluminum marquee event tents are relatively easy to transport to different locations. They can be disassembled into manageable components for storage and transportation, making them suitable for various outdoor events and venues.

#### FAQ:

##### 1. Can you print our logos on the tent?

Yes. The logo can be print on the tent fabric according to your requirements.

##### 2. What is the delivery time?

In general, about 7-15 working days. If your order is large or customized, the lead time need more time.

##### 3. Is your tent strong and stable enough? How about the wind loading?

Yes, It is can resist wind up to 80-100 km/hr, if the wind or snow is very very heavy, please tell us and we will strengthen the tent to keep you safe!

##### 4. Does your tent be able to installed repeatedly? What is the life span?

Our tents can be assembled and dismantled easily and repeatedly with small transportation size.The life span of aluminum framework can reach

8-10 years, and 4-6 years for PVC fabrics depending on different conditions of usage.

#### 5. What documents are available?

A full range documents including structural drawings, packing list, installation manual and relative certificates can be provided. Moreover, customs declaration is provided. We provide one-stop service for you.
