Features	Water Proof, UV Resistance, Fire Retardant(DIN4102,B1,M2)
Application	Wedding, Party, Event, Exhibition,etc
Accessories	Drapery, Air Conditioner, Heater, Floor, Window, Curtain, Lighting etc.

Here are some of the key features of warehouse large tents:

Spacious Interior: Warehouse large tents are characterized by their expansive interior space, providing ample room for storing equipment, inventory, vehicles, machinery, or other large items.

High Ceilings: These tents typically have high ceilings to accommodate tall equipment or stacked inventory, maximizing vertical storage space.

Durable Construction: Warehouse tents are constructed from high-quality materials such as galvanized steel frames and heavy-duty PVC or polyester fabric covers. This ensures durability and long-term reliability, even in challenging weather conditions.

Weather Resistance: The fabric covers of warehouse tents are often treated to be waterproof, UV-resistant, and flame-retardant, providing protection against rain, snow, sun exposure, and other environmental factors.

Modular Design: Many warehouse tents feature a modular design, allowing for easy expansion or customization to meet specific storage requirements. Additional sections or extensions can be added to increase the overall length or width of the tent as needed.

Quick Installation: Warehouse tents can be installed relatively quickly compared to traditional brick-and-mortar buildings. The modular design, coupled with pre-fabricated components, allows for rapid assembly, minimizing downtime and disruption to operations.

FAQ:

Q1 What is the MOQ in Tendars?

Normally 25sqm; or pls go to ask customer service;

Q2: Can you print our logos on the tent?

Yes. Customized logos can be printed on the tent fabric according to your requirements.

Q3. Do You Provide Any Guidance on the Job-site?

We will attach the build instructions in your product package.

If you need, we will send our technology staff and project manager to provide installation guidance in your job-site.

Q4. How Long Will a Tendars Clear Span Structure Last?

In the reasonable using, the lifespan of the aluminum alloy can last over 10-15 years and the PVC cover is guaranteed up to 5 years.
