Outdoor Customized Color Tent Aluminum Alloy Large Wedding Exhibition Activity Tent

Our Product Introduction

Basic Information

- Place of Origin: Guangdong
- Brand Name: Tendars
- Certification: ISO9001, SGS, Coc, CE
- Model Number: Big tent
- Minimum Order Quantity: 25 square meters
- Price: Reconsideration
- Packaging Details: 1, The aluminium frame structure packed into the bubble film 2, the pvc fabric roof cover and sidewalls are packed into the PVC fabric carry bag; 3, Hardware packed into the box.
- Delivery Time: 18days or To be negotiated
- Payment Terms: L/C, T/T, Western Union, MoneyGram
- Supply Ability: 50000 Square Meters per Month

Product Specification

- Product Name: Aluminum Alloy Large Wedding Tent
- Application: Exhibition/church/wedding/hotel/glamping/cer
- Color: Customized Color
- Feature: Excellent Fire Resisirance, High Temperature Resistance
- Side Wall: Soft PVC Walls, ABS Wall, glass Wall
- Frame Material: Aluminum 6061 / T6
- Fabric Material: 850g/sqm White PVC Cover Wall Material
- Logo: Accept Customized Logo

Product Description

Outdoor Customized Color Tent Aluminum Alloy Large Wedding Exhibition Activity Tent

Specification :

item	value
Place of Origin	China
	Guangdong
Product name	Aluminum Alloy Large Wedding Tent
Application	exhibition/church/wedding/hotel/glamping/ceremony,party,event,etc
Ground Situation	Grass Land, Earth Land, Asphalt Ground, Cement Ground
Color	Customized Color
Feature	Excellent fire resisirance,High temperature resistance
Side Wall	Soft PVC Walls,ABS wall,glass wall
Frame material	Aluminum 6061 / T6
Certificates	CE Certificate
Fabric Material	850g/sqm white PVC cover Wall Material
Logo	Accept Customized Logo

Sidewall Height	3m, 5m or Curtomized
Span/Width	From 3m to 60m
Roof Cover Material	850g/sqm PVC coated polyester fabric
Frame Material	Aluminum Alloy
Service Life	More than 15 years
Fixing Solutions	Ground Anchor, Expansion Bolt, Weight Plate, etc.
Applications	Party, Event, Exhibition, Wedding, Gamping, etc.
Ground Situations	Grassland, Earth Land, Asphalt, Cement Ground, etc.
Usage	Advertising Display
Color	White or transparent

Here are general steps to guide you through the installation process:

Site Preparation:

Choose a suitable location for the wedding tent, ensuring that the ground is level, stable, and free of any obstructions such as rocks, debris, or underground utilities.

If necessary, mark the perimeter of the tent area using stakes or markers to indicate where the tent will be installed.

Unpacking and Organizing Materials:

Unpack the components of the wedding tent and organize them according to their type and size. This includes the aluminum alloy frame components, fabric canopy, sidewalls, stakes, anchors, and any additional accessories.

Assembling the Frame:

Start by assembling the aluminum alloy frame according to the manufacturer's instructions. This typically involves connecting the frame poles or beams using connectors, bolts, or pins to create the framework of the tent.

Ensure that each frame component is securely connected and properly aligned to prevent any structural issues or instability.

Installing the Canopy:

Once the frame is assembled, carefully drape the fabric canopy over the frame, ensuring that it is centered and evenly distributed.

Secure the canopy to the frame using tensioning straps, clips, or fasteners, making sure that it is taut and wrinkle-free.

Anchoring the Tent:

Anchor the tent to the ground using stakes, anchors, or weights to prevent it from being lifted by wind or other external forces.

Drive stakes into the ground at regular intervals along the perimeter of the tent, ensuring that they are driven at an angle for maximum stability.

Alternatively, use anchors such as concrete blocks, sandbags, or water barrels to secure the tent in place, especially if staking is not feasible.

Installing Sidewalls and Accessories:

If the wedding tent includes sidewalls, install them as needed to provide additional protection and privacy for the event.

Install any additional accessories such as flooring, lighting, heating or cooling systems, and decorative elements to enhance the functionality and ambiance of the tent.

Final Inspection:

Once the tent is fully assembled and secured, conduct a final inspection to ensure that everything is in place and functioning correctly.

Check for any loose or damaged components, and make any necessary adjustments or repairs before allowing guests to enter the tent.

Post-Event Disassembly:

After the event is over, carefully disassemble the tent following the manufacturer's instructions.
Pack and store the tent components properly to prevent damage and ensure that they are ready for future use.

FAQ:

1. who are we?

We are factory,based in Guangdong, China.

2. how can we guarantee quality?

Always a pre-production sample before mass production;
Always final Inspection before shipment;

3.what can you buy from us?

Exhibition Equipment and Accessories,Tent

4. why should you buy from us not from other suppliers?

A complete industrial chain, from aluminum extrusion molding and processing, can be customized style and size, one-stop solution to the awning room, faster delivery, complete after-sales

5. what services can we provide?

Accepted Delivery Terms: FOB,CFR,CIF,EXW,Express Delivery ;
Accepted Payment Currency:USD;
Accepted Payment Type: T/T,L/C,Credit Card,PayPal,Western Union,Cash;
Language Spoken:English,Chinese

6. How can you make sure we will receive the product with high quality?

In the processing flow, we have a series of detection machine to control the quality. Before loading, our QC will inspect each shipment and all raw material is according to foodstuff requirement.
