

## Outdoor Customized Modern Waterproof Aluminum Frame White PVC Wedding Marquee Tent Party Event Canopy

Our Product Introduction

### Basic Information

- Place of Origin: Guangdong
- Brand Name: Tendars
- Certification: ISO9001, SGS Coc, CE
- Model Number: Big tent
- Minimum Order Quantity: 25 square meters
- Price: Reconsideration
- Packaging Details: 1, The aluminium frame structure packed into the bubble film 2, the pvc fabric roof cover and sidewalls are packed into the PVC fabric carry bag; 3, Hardware packed into the box.
- Delivery Time: 18days or To be negotiated
- Payment Terms: L/C, T/T, Western Union, MoneyGram
- Supply Ability: 50000 Square Meters per Month

### Product Specification

- Product Name: Tent For Wedding Party Event
- Application: Event/Party/Exhibition/Wedding/Warehouse/ll
- Color: Customized Color
- Feature: UV Resistance/Waterproof
- Size: Customized Size
- Side Wall: Glass Wall/PVC Wall
- Cover Material: Double PVC-Coated Polyester
- Door: Aluminium Door
- Highlight: **Waterproof PVC Marquee Tent ,  
Wedding Party Event PVC Marquee Tent ,  
White PVC Marquee Tent**

#### Details:

Here are some common materials used in the construction of tents for wedding parties:

#### Fabric:

**Vinyl/PVC:** Vinyl-coated polyester or PVC (polyvinyl chloride) is a popular choice for tent fabric due to its durability, waterproof properties, and resistance to UV rays. It comes in various weights and colors, allowing for customization based on the specific requirements of the event.

**Canvas:** Canvas tents offer a more traditional and elegant aesthetic. They are often made from cotton or a blend of cotton and synthetic fibers. Canvas is breathable, providing good airflow within the tent, but may require additional treatments to enhance water resistance.

**Polyester:** Polyester fabric is lightweight, easy to clean, and resistant to mildew and UV damage. It is commonly used in modern tent structures, such as frame tents and clear-span tents, offering versatility and durability.

#### Frame Materials:

**Aluminum:** Aluminum is lightweight, corrosion-resistant, and strong, making it an ideal choice for tent frames. Aluminum frames are easy to transport, assemble, and disassemble, offering flexibility for various event setups.

**Steel:** Steel frames provide superior strength and stability, making them suitable for large or permanent tent installations. While heavier than aluminum, steel frames offer durability and can withstand harsh weather conditions.

#### Additional Materials:

**Poles and Stakes:** Tent poles and stakes are typically made from aluminum or steel and are used to support and anchor the tent structure to the ground.

**Sidewalls:** Sidewalls may be made from the same materials as the tent fabric or from transparent materials such as clear PVC or acrylic. They provide additional protection from wind, rain, and sun exposure while allowing natural light to enter the tent.

**Flooring:** Tent flooring options include plywood, plastic, carpet, or interlocking tiles. Flooring enhances comfort, provides a stable surface for tables and chairs, and protects against moisture and uneven ground.

**FAQ :**

**Q: What size of width and length for your tent?**

A: The width we offer from 3m- 60m. Length are unlimited which can increase by multiples of 3m unit or 5m unit.

**Q: Is your tent safe enough to do permanent structure?**

A: Sure, the main frame are manufactured with high impact extruded anodized aluminum (6061/T6) which can resist wind up to 100 km/h.

**Q: What is the life span of your products?**

A: Our tents are thoroughly confirm to the strictest European and the Australia quality standards, life span of aluminum alloy is 20-30years, PVC roof and sidewalls is 10 years.

**Q: What kinds of tent can you produce?**

A: We are the leading tent manufacturer in China and produce different sizes of tents which clear span could be from 3m to 65m in different shapes.

**Q: Can you make customized tent?**

A: Yes, OEM and ODM orders are available by our experienced engineers.

**Q: whether need equipment to install your tent?**

A: It depend on size, Small clear span (3m to 15m) tent do not need any equipment; 15-22m clear span need fork car; above 22m clear span tent need crane.
