

Best Price Aluminum Steel Sandwich Wall Warehouse Tent For Storage With Custom Door

Our Product Introduction

Basic Information

- Place of Origin: Guangdong
- Brand Name: Tendars
- Certification: ISO9001, SGS Coc, CE
- Model Number: Big tent
- Minimum Order Quantity: 25 square meters
- Price: Reconsideration
- Packaging Details: 1, The aluminium frame structure packed into the bubble film 2, the pvc fabric roof cover and sidewalls are packed into the PVC fabric carry bag; 3, Hardware packed into the box.
- Delivery Time: 18days or To be negotiated
- Payment Terms: L/C, T/T, Western Union, MoneyGram
- Supply Ability: 50000 Square Meters per Month

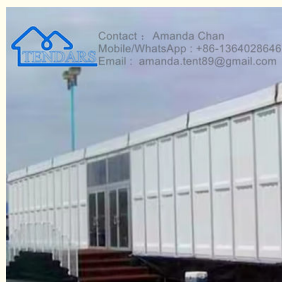

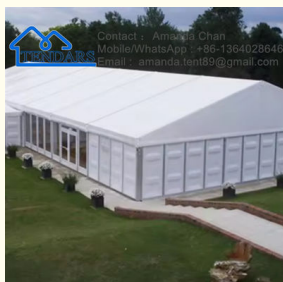

Product Specification

- Product Name: Warehouse Tent For Storage
- Warranty: 1 Year
- Wind Load: 80-100km/h
- Frame Material: Hard Pressed Aluminum Alloy T6061/T6
- Cover Material: 850g/sqm Double PVC-Coated Polyester
- Snow Load: 75kg/Sqm
- Door: PVC Door, Glass Door, Aluminium Door
- Usage: Event, Wedding, Party, Warehouse, Etc
- Highlight: **Storage Wall Warehouse Tent,
Best Price Wall Warehouse Tent,
Custom Door Wall Warehouse Tent**

Product Description

Best Price Aluminum Steel Sandwich Wall Warehouse Tent For Storage With Custom Door For Sale

Description :

Item Name	Best Price Aluminum Steel Sandwich Wall Warehouse Tent For Storage With Custom Door For Sale
Frame Material	Hard pressed Aluminum Alloy T6061/T6
Roof Cover Material	850g/sqm PVC Coated Polyester Fabric
Side Wall Material	PVC Wall, Glass Wall, ABS Wall, Sandwich Wall
Span/Width	From 3m to 60m
Sidewall Height	3m, 4m , 5m, 6m or Customized
Color	White, Transparent, Green, Gray or Customized
Life Span	8-10 Years
Wind Load	75kg/sqm
Snow Load	80-100kg/m ²
Resistant Temperature	-30 to +70
Features	Water Proof, UV Resistance, Fire Retardant(DIN4102,B1)
Application	Wedding, Party, Event, Exhibition,etc
Accessories	Drapery, Air Conditioner, Heater, Floor, Window, Curtain, Lighting etc.

Tent Size(m)	Side Height(m)	Frame Size(mm)	Floor Area()	Capacity (Events)
10x20	3	122x48x3	200	150-200 Peoples
15x30	4	166x88x3	450	380-450 Peoples
20x40	4	112x203x4	800	500-600 Peoples
30x50	4	120x250x4	1500	1200-1500 Peoples
40x60	6	120x300x5	2400	1500-1200 Peoples

Here are some of the key advantages:

Lightweight: Aluminum is a lightweight material compared to steel, making it easier to transport, handle, and install. This feature is particularly advantageous for temporary structures like warehouse tents, where mobility and ease of assembly are important factors.

Corrosion Resistance: Aluminum is highly resistant to corrosion, even in harsh outdoor environments. This resistance to rust and deterioration ensures the longevity and durability of aluminum warehouse tents, making them suitable for long-term use in various weather conditions.

Strength-to-Weight Ratio: Despite being lightweight, aluminum has excellent strength-to-weight ratio. It offers sufficient structural integrity and load-bearing capacity to support the weight of the tent and withstand external forces such as wind and snow loads.

Durability: Aluminum warehouse tents are durable and long-lasting, thanks to the inherent properties of aluminum. They can withstand heavy use and exposure to environmental elements without compromising their structural integrity or performance.

Recyclability: Aluminum is a highly recyclable material, making it an environmentally friendly choice for warehouse tent construction. Recycling aluminum requires significantly less energy compared to producing new aluminum, contributing to sustainability efforts and reducing environmental impact.

Customization: Aluminum is a versatile material that can be easily fabricated and customized to meet specific design requirements. Warehouse tents made from aluminum can be tailored to accommodate various sizes, shapes, and configurations, allowing for flexibility and adaptability in storage solutions.

Low Maintenance: Aluminum warehouse tents require minimal maintenance compared to other materials like steel. They do not rust or corrode, eliminating the need for protective coatings or treatments. Routine cleaning and inspection are typically sufficient to maintain the appearance and functionality of aluminum warehouse tents.

Fire Resistance: Aluminum has inherent fire-resistant properties, making it a safer choice for warehouse tent construction. While aluminum itself does not burn, it may melt under extremely high temperatures. However, aluminum warehouse tents can be equipped with fire-retardant fabric covers for added safety.

FAQ :

1. Can you print our logos on the tent?

Yes. The logo can be print on the tent fabric according to your requirements.

2. What is the delivery time?

In general, about 7-15 working days. If your order is large or customized, the lead time need more time.

3. Is your tent strong and stable enough? How about the wind loading?

Yes, It is can resist wind up to 80-100 km/hr, if the wind or snow is very very heavy, please tell us and we will strengthen the tent to keep you safe!
