## Big Customized Warehouse A-Frame Temporary Structure Industrial Storage Tent

Our Product Introduction

### Basic Information

- Place of Origin: Guangdong
- Brand Name: Tendars
- Certification: ISO9001, SGS, Coc, CE
- Model Number: Big tent
- Minimum Order Quantity: 25 square meters
- Price: Reconsideration
- Packaging Details: 1, The aluminium frame structure packed into the bubble film 2, the pvc fabric roof cover and sidewalls are packed into the PVC fabric carry bag; 3, Hardware packed into the box.
- Delivery Time: 18days or To be negotiated
- Payment Terms: L/C, T/T, Western Union, MoneyGram
- Supply Ability: 50000 Square Meters per Month

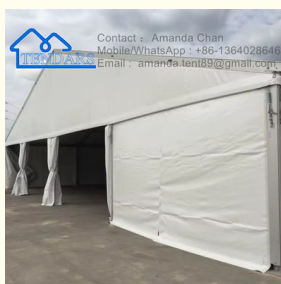

### Product Specification

- Product Name: Temporary Structure Industrial Storage Tent
- Material: Roof Pvc:850g/sqm,0.6mm Thickness,side PVC:650g/sqm,0.6mm Thickness
- Usage: Party,shows,exhibition,car Shows,beer Festival,warehouse
- Color: Custom
- Size: Custom
- Shape: A-frame
- Roof Cover: Aluminum Alloy GB6061-T6/6082-T6
- Highlight: Customized Industrial Storage Tent, Industrial Storage Tent, A-Frame Industrial Storage Tent

## Product Description

### Big Customized Warehouse A-Frame Temporary Structure Industrial Storage Tent For Sale

#### Description :

Material	Aluminium frame,double PVC-coated polyester, roof pvc:850g/sqm,0.6mm thickness,side PVC:650g/sqm,0.6mm thickness,UV protection,block-out,water-proof, fire- retardant.
Color	white,red ,blue,yellow
Function	party, fair, auto show
Feature	Easy to disassemble and can be reused many times, as long as there is an open space, you can build a party tent
Usage	party,shows,exhibition,car shows,beer festival,warehouse

#### Here are some notable traits:

**Modular Design:** These tents are often designed with a modular framework, allowing for easy assembly and disassembly. This modular design enables flexibility in configuring the storage space according to specific needs, whether it's for short-term projects or long-term storage requirements.

**Quick Deployment:** Temporary structure industrial storage tents can be rapidly deployed, minimizing downtime and enabling businesses to address immediate storage needs promptly. This quick deployment is essential for maintaining operational efficiency in dynamic industrial environments.

**Versatility:** These tents are highly versatile and can accommodate a wide range of storage needs, including raw materials, finished products, machinery, equipment, and vehicles. They can also serve as temporary workshops, manufacturing facilities, or distribution centers.

**Durability:** Despite being temporary structures, industrial storage tents are constructed from durable materials that can withstand harsh industrial environments. They are often made of high-quality materials such as galvanized steel frames and heavy-duty PVC or polyester fabric covers, ensuring durability and longevity.

**Weather Resistance:** Industrial storage tents are designed to withstand various weather conditions, providing protection for stored items against rain, wind, snow, and UV exposure. Weather-resistant fabric covers and robust frame structures ensure that stored goods remain safe and secure.

**Scalability:** These tents are scalable solutions that can be easily expanded or modified to accommodate changing storage requirements. Additional sections can be added to increase storage capacity, providing businesses with flexibility as their storage needs evolve.

**Portability:** Industrial storage tents are portable structures that can be relocated to different locations as needed. This portability is advantageous for businesses that require flexible storage solutions or need to move their operations to different sites.

**Cost-Effectiveness:** Compared to permanent warehouse structures, industrial storage tents offer a more cost-effective storage solution. They require lower upfront investment and have minimal ongoing maintenance costs, making them an attractive option for businesses looking to optimize their storage expenses.

**Compliance:** Many industrial storage tents are designed to meet industry standards and regulations for safety and structural integrity. Compliance with relevant codes and requirements ensures that businesses can safely use these structures for storage purposes.

#### FAQ :

##### Q: What size tent is necessary for your special event?

A person must first determine tent usage. If a tent is being used for dining purposes and round tables are being used allow 10-12 square feet per person. If banquet style tables are being used allow 8-10 square feet per person.If the purpose is for cocktail service allow five to six square feet per person. Contact us for all your specific questions and more information on tent types.

##### Q: Can you print our logos on tent?

Yes.Customized logos can be print on the tent fabric according to your requirements.

##### Q: Is that factory price?

Yes.We assure you all prices are based on factory.

##### Q: Does your tent be able to install repeatedly?

Our tents can be assembled and dismantled and repeatedly with small transportation size.The lifespan of aluminium framework can reach 15-20

years, and 5-8 years for PVC fabrics depending on different conditions of usage.

**Q: What documents are available?**

A full range documents including structural drawings, packing list, installation manual can be provided. Moreover, customs declaration is provided. We provide one-stop service for you.

**Q: Has your tent product been certified?**

Yes. Our tent product has passed the engineering tests. Besides, the PVC fabric used for roof covers and sidewalls has passed the fire tests and the flame retardant test based on the standard of German.

**Q: Is your tent strong and stable enough? How about the wind loading?**

Yes. The main frameworks (upright support and roof beam) are manufactured with high impact extruded anodized aluminum (6061/T6) so our tent structure is safe and strong and can resist wind up to 100 km/hr.

**Q: How long is the warranty period?**

Guarantee one year. During the warranty period, we shall repair or replace the damaged part accordingly because of any damage due to quality problem.
