25m	4m	8m	112*203	5m
30m	4m	8.8m	113*259	5m
40m	4m	10.5m	120*300	5m

#### Key Features:

**A-Frame Roof Design:** A-frame storage tents feature a pitched roof with a triangular cross-section resembling the letter "A." This design not only provides structural stability but also allows for efficient water runoff, minimizing the risk of water pooling on the roof during rain or snow.

**Spacious Interior:** Despite their compact footprint, A-frame storage tents offer generous interior space for storing a wide range of items, from small tools and equipment to large machinery and vehicles. The absence of interior support columns or poles maximizes usable storage space and allows for easy access to stored items.

**Durable Construction:** These tents are constructed with high-quality materials to ensure durability and longevity. The frame is typically made of sturdy materials such as galvanized steel or aluminum, while the cover is made of heavy-duty fabric such as PVC or polyester, offering resistance to weather elements and UV rays.

**Weather Resistance:** A-frame storage tents are designed to withstand various weather conditions, including rain, wind, snow, and sun exposure. The weather-resistant fabric cover and sturdy frame provide reliable protection for stored items, ensuring they remain safe and secure in any weather.

**Quick Assembly:** A-frame storage tents are engineered for quick and easy assembly, with pre-fabricated components that can be assembled on-site using basic tools and minimal labor. This allows for rapid deployment of storage facilities, minimizing downtime and maximizing productivity.

#### FAQ :

##### Q: Are you tent factory?

A: Yes, we are professional tent manufacturer in Guangzhou of China, close to shenzhen .We assure you our prices are based on factory.

##### Q: What is the MOQ of the tent?

A: One Set.

**Q: What size tent and what types do i need?**

A: Tent size depends on the number of people to accommodate or the area you want to cover. In our factory, your choice can be 3 meter to 50 meter on width. For tent types, contact us with detailed requirements. We will send you our professional solution.

**Q: What is the production time for standard tent?**

A: 25-30 days after deposit confirmed.

**Q: What's the lifespan of your clear span structure tent?**

A: In the reasonable using, the lifespan of the aluminum alloy can last over 10 years and the PVC cover is more than 7 years.

**Q: Can your tent be relocated?**

A: All our tent structures is designed into relocatable construction. For the seasonal and regional reason, you can dismantle, store or remove the tent to other location.

**Q: Can I extend the tent size or replace the related accessories in the future?**

A: Sure. All of our tent structures and accessories are modular type. You can extend the tent length by adding some extra parts.

**Q: What kind of warranty do you provide?**

A: We provide an one year guarantee. During the warranty period, we shall replace the damaged part accordingly because of any damage due to quality problem.
