FAQ :

1)Q: Are you a factory or trading company?

A: We are a professional tent factory. So we can offer you a competitive price and a fast delivery time, can also control the quality well and supply constantly to ensure the quantity.

2)Q: What is the life span of your tents?

A: Life span of the aluminium is 15-20 years, PVC fabric is 5-6 years. Good discount will be given to you to get a new fabric from us after 5-6 years.

3)Q: How to assemble your tents?

A: We will provide the manual and video for you to study. If you need, we can send a technician to help you in your country.

4)Q: How to choose the size of the tent?

A: The size depends on how many people you want to stand, sit or have dinner in this tent. And the size also depends on the land space you will put up this tent. Normally, we advise 1-1.5sq.m/person.

5)Is the tent completely waterproof?

Yes, waterproof storage marquees are designed to withstand various weather conditions, including rain and snow. The fabric cover is typically made of PVC or polyester with waterproof coatings to ensure protection against moisture.

6)How do I ensure the tent remains waterproof over time?

Regular maintenance is essential to ensure the tent remains waterproof. Inspect the fabric cover for any signs of wear, tears, or damage, and repair them promptly using patch kits or sealants recommended by the manufacturer.

7)Can I use the tent in windy conditions?

While waterproof storage marquees are designed to withstand moderate wind conditions, it's important to properly anchor the tent to the ground using suitable anchoring methods such as stakes, anchors, or weights to prevent damage or displacement during windy weather.
