Product Description

Large Custom Waterproof,UV Resistant,Fireproof Industrial Storage A-Frame Tent For Sale

Description :

Frame Material	Hard pressed Aluminum Alloy T6061/T6
Roof Cover Material	850g/sqm PVC coated polyester fabric
Side Wall	PVC Wall, Glass Wall, ABS Wall, Sandwich Wall
Span/Width	From 6m to 60m
Sidewall Height	3m, 4m , 5m, 6m or Customized
Color	White, Transparent or Customized
Life Span	8-10 Years
Wind Load	100km/h
Snow Load	75kg/
Resistant Temperature	-30 to +70
Features	Water Proof, UV Resistance, Fire Retardant(DIN4102,B1,M2)
Application	Wedding, Party, Event, Exhibition,etc
Accessories	Drapery, Air Conditioner, Heater, Floor, Window, Curtain, Lighting etc.

Features:

Durable Construction: Industrial storage tents are built with durable materials to withstand the rigors of industrial environments. The frame is typically made of robust materials such as galvanized steel or aluminum, providing structural integrity and stability. The fabric cover is made of heavy-duty materials such as PVC or polyester, offering resistance to weather elements, UV rays, and abrasion.

Ample Storage Space: Despite their portable nature, industrial storage tents offer ample interior space for storing equipment, inventory, raw materials, and finished goods. The absence of interior support columns or poles maximizes usable storage space, allowing for efficient organization and access to stored items.

Quick Assembly: Industrial storage tents are designed for quick and easy assembly, with pre-fabricated components that can be assembled on-site using basic tools and minimal labor. This allows for rapid deployment of storage facilities, minimizing downtime and maximizing productivity.

Weather Resistance: The weather-resistant fabric cover and sturdy frame of industrial storage tents provide reliable protection for stored items against rain, wind, snow, sun exposure, and other outdoor elements. This ensures that stored items remain safe and secure in any weather conditions.

Customization Options: Industrial storage tents often offer customization options to suit specific storage needs. This may include adding doors, windows, ventilation systems, lighting, insulation, or partition walls to optimize the space and functionality of the structure.

Portability: Despite their heavy-duty construction, industrial storage tents are portable structures that can be easily transported and relocated to different locations as needed. This portability provides flexibility for businesses that require temporary or mobile storage solutions.

Versatility: These tents are versatile structures that can be used for a wide range of industrial storage applications, including warehouse overflow, inventory storage, equipment storage, manufacturing facilities, distribution centers, and more. They can also serve as temporary workshops or production areas.

Cost-Effectiveness: Industrial storage tents offer a cost-effective storage solution compared to permanent warehouse structures. They require lower upfront investment and have reduced ongoing maintenance costs, making them an attractive option for businesses seeking efficient storage solutions.

Safety Features: Industrial storage tents may include safety features such as fire-resistant materials, emergency exits, and compliance with industry safety standards to ensure the safety of workers and stored items.

FAQ :

Q1 What is the MOQ in Tendars?

Normally 25 sqm; or pls go to ask customer service;

Q2: Can you print our logos on the tent?

Yes. Customized logos can be printed on the tent fabric according to your requirements.

Q3. Do You Provide Any Guidance on the Job-site?

We will attach the build instructions in your product package.

If you need, we will send our technology staff and project manager to provide installation guidance in your job-site.

Q4. How Long Will a Tendars Clear Span Structure Last?

In the reasonable using, the lifespan of the aluminum alloy can last over 10-15 years and the PVC cover is guaranteed up to 5 years.
