

Large Waterproof Aluminum Alloy Temporary Building Industrial Storage Tent

Our Product Introduction

Basic Information

- Place of Origin: Guangdong
- Brand Name: Tendars
- Certification: ISO9001, SGS Coc, CE
- Model Number: Big tent
- Minimum Order Quantity: 25 square meters
- Price: Reconsideration
- Packaging Details: 1, The aluminium frame structure packed into the bubble film 2, the pvc fabric roof cover and sidewalls are packed into the PVC fabric carry bag; 3, Hardware packed into the box.
- Delivery Time: 18days or To be negotiated
- Payment Terms: L/C, T/T, Western Union, MoneyGram
- Supply Ability: 50000 Square Meters per Month

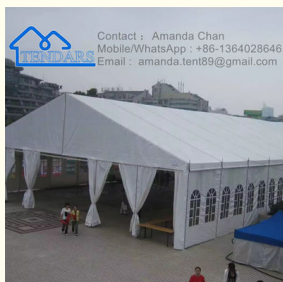

Product Specification

- Product Name: Building Industrial Storage Tent
- Place Of Origin: Guangdong, China
- Length: Custom
- Frame Material: Aluminum Alloy
- Fabric: Double Coated PVC
- Cover Color: Customized Or White,transparent,blue,yellow,green,red
- Function: Waterproof, Fire-retardant, Sunlight Proof
- Wind Load: 80-100km/h
- Highlight: **large waterproof storage tent, aluminum alloy industrial tent, temporary building storage tent**

12m	3m	5m	68*122	5m
15m	3m	5.4m	108*150	5m
18m	3m	5.9m	112*203	5m
20m	4m	7.2m	112*203	5m
25m	4m	8m	112*203	5m
30m	4m	8.8m	113*259	5m
40m	4m	10.5m	120*300	5m

Here are some key features typically found in these tents:

1. Industrial storage tents are built with sturdy materials to withstand heavy-duty use in industrial environments. The frame is made of galvanized steel or aluminum, providing structural integrity and resistance to corrosion.
2. The fabric cover of industrial storage tents is made of high-quality, weather-resistant materials such as PVC or polyester. These materials are waterproof and UV-resistant, ensuring protection for stored items against rain, snow, and sun exposure.
3. Industrial storage tents offer a spacious interior with high ceilings, allowing for maximum vertical storage space. The absence of interior support columns or poles maximizes usable storage space and allows for easy movement of equipment and materials within the tent.
4. These tents can be customized to meet specific storage needs. Optional features such as doors, windows, ventilation systems, lighting, insulation, and partition walls can be added to optimize the storage space and enhance functionality.
5. Industrial storage tents are designed for easy and quick assembly, with pre-fabricated components that can be assembled on-site using basic tools and minimal labor. This allows for rapid deployment of storage facilities, minimizing downtime and maximizing productivity.
6. Despite their sturdy construction, industrial storage tents are portable structures that can be easily transported and relocated to different locations as needed. This portability provides flexibility for businesses that require temporary or mobile storage solutions.

Company introduction:

Tendars technology Co.,Ltd is the professional party tent manufacturer in China who Introduced European advanced aluminum and PVC structure tents technology into our own design, selling and manufacture. We start as a small operation, with more than 10 years production experience.
