Features	Water Proof, UV Resistance, Flame Retardant (DIN4102,B1,M2)
Application	Wedding, Party, Event, Exhibition, etc
Accessories	Air Conditioner, Door Heater Flooring, Window, Curtain, Lighting etc.

Here are the key features and components of an aluminum waterproof warehouse storage tent:

Aluminum Frame: The tent's frame is constructed from high-strength aluminum alloy, providing structural stability and durability. Aluminum is lightweight yet robust, making it an ideal material for supporting large tent structures.

Waterproof Fabric Cover: The tent's fabric cover is made of high-quality, waterproof material such as PVC (polyvinyl chloride) or polyester with PVC coating. This fabric is designed to withstand rain, snow, and other weather elements, ensuring that the interior of the tent remains dry and protected.

Weatherproof Design: The tent is engineered to be weatherproof, with sealed seams, reinforced corners, and weather-resistant zippers to prevent water infiltration and ensure a tight seal against the elements.

Spacious Interior: The tent offers a spacious interior with ample room for storing equipment, inventory, materials, and more. The absence of interior support columns or poles maximizes usable storage space, allowing for efficient organization and access to stored items.

Customization Options: The tent can be customized to suit specific storage needs, with options such as doors, windows, ventilation systems, lighting, insulation, and partition walls available to optimize the space and functionality of the structure.

Quick Assembly: The tent is designed for easy and rapid assembly, with pre-fabricated components that can be assembled on-site using basic tools and minimal labor. This allows for quick deployment of storage facilities, minimizing downtime and maximizing productivity.

FQA:

Q: What is the production time for standard tent?

A: 25-30 days after deposit confirmed.

Q: What's the lifespan of your clear span structure tent?

A: In the reasonable using, the lifespan of the aluminum alloy can last over 10 years and the PVC cover is more than 7 years.

Q: Can your tent be relocated?

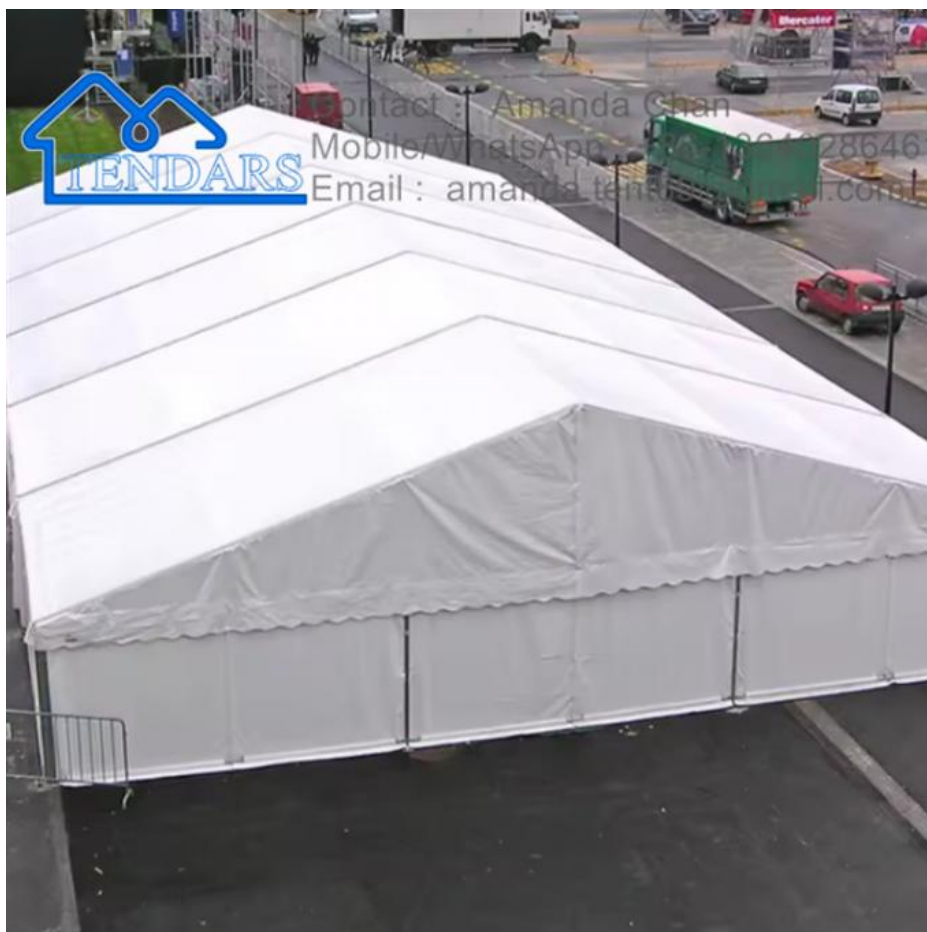

A: All our tent structures is designed into relocatable construction. For the seasonal and regional reason, you can dismantle, store or remove the tent to other location.

Q: Can I extend the tent size or replace the related accessories in the future?

A: Sure. All of our tent structures and accessories are modular type. You can extend the tent length by adding some extra parts.

Q: What kind of warranty do you provide?

A: We provide an one year guarantee. During the warranty period, we shall replace the damaged part accordingly because of any damage due to quality problem.
