500m2	15m	35m	Big tent-15
1000m2	20m	50m	Big tent-20

Here are some key features commonly found in canopy marquee tents for storage:

Durable Frame Construction: Canopy marquee tents typically feature sturdy frame construction made from materials such as aluminum or steel. The frame provides structural support for the tent and ensures stability in outdoor conditions, even in windy or inclement weather.

Weather-Resistant Fabric Cover: The fabric cover of canopy marquee tents is designed to withstand outdoor elements such as rain, wind, and UV exposure. High-quality fabric materials such as PVC or polyethylene are commonly used, offering durability, waterproofing, and resistance to tearing and fading.

Spacious Interior: Canopy marquee tents offer a spacious interior with ample headroom, allowing for easy movement and storage of various items. The open design of the tent provides flexibility for organizing storage racks, shelves, or equipment within the space.

Versatile Usage: These tents are versatile structures that can be used for a wide range of storage applications, including storing vehicles, equipment, tools, supplies, and more. They are suitable for use in residential, commercial, industrial, and agricultural settings.

Quick Assembly and Portability: Canopy marquee tents are designed for easy setup and takedown, allowing for rapid deployment and relocation as needed. Modular construction and intuitive assembly instructions facilitate quick installation without the need for specialized tools or equipment.

Customization Options: Many canopy marquee tents offer customization options to tailor the tent to specific storage requirements. Optional features such as sidewalls, doors, windows, and ventilation systems can be added to enhance functionality and adaptability for different storage needs.

Accessibility: The open design of canopy marquee tents provides easy access to stored items from all sides, allowing for efficient loading, unloading, and organization. Roll-up or zippered doors offer convenient entry points for personnel and equipment.

FQA:

Q: Could you help do our logos on the tent?

Yes. Customized logos can be print on the tent fabric according to your requirements.

Q: Can the tents be installed repeatedly?

Yes. Our tents can be assembled and dismantled and repeatedly.

Q: How long is the warranty period?

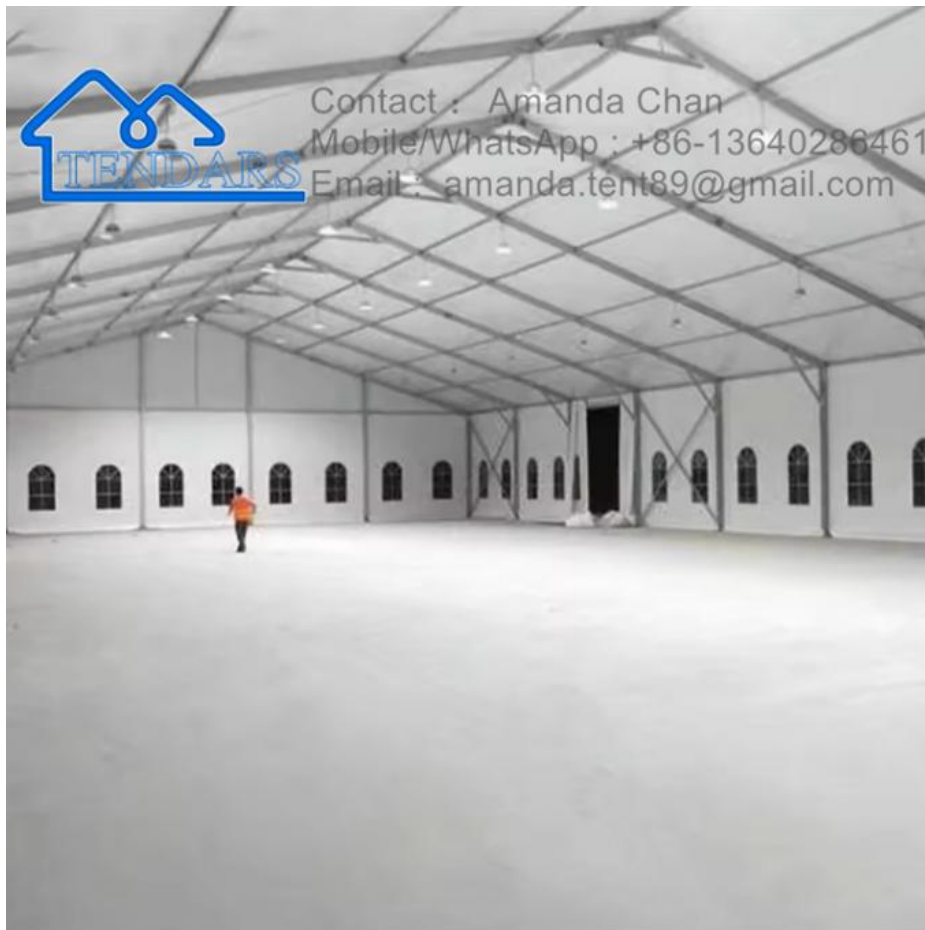

The lifespan of aluminum framework can reach 15 years, and about 5 years for PVC fabrics depending on different conditions of usage.

Q: Is that factory price?

Yes. We assure you all prices are factory price.

Q: Is your tent strong and stable enough ? How about the wind loading ?

Yes, It can resist wind up to 100 km/hr, if the wind or snow is very very heavy, please tell us and we will strengthen the tent to keep you safe!
