Doors	double-wing glass door, single-wing glass door, glass fire door, aluminium door, rolling shutter
Wall	soft PVC fabric wall, glass wall, ABS hard wall, sandwich panel wall, steel plate wall
Fixing Methods	ground anchors, weight plate, expandable bolts

Here are some key features commonly found in large storage tents:

Spacious Interior: Large storage tents are designed to provide ample storage space for various items, including inventory, equipment, machinery, vehicles, and more. The spacious interior allows for efficient organization and utilization of storage space.

Durable Construction: These tents are constructed using high-quality materials such as galvanized steel or aluminum frames and heavy-duty fabric covers made from PVC or polyethylene. The sturdy construction ensures structural integrity and longevity, providing reliable protection for stored items.

Weather Resistance: Large storage tents are designed to withstand harsh weather conditions, including wind, rain, snow, and UV exposure. The fabric covers are treated for UV resistance, waterproofing, and flame retardancy to ensure that stored items remain safe and protected from the elements.

Quick Assembly and Portability: Despite their size, large storage tents can be assembled relatively quickly using modular construction techniques and pre-fabricated components. This allows for rapid deployment and relocation as needed, providing flexibility for changing storage requirements or site conditions.

Accessibility and Functionality: Large storage tents are designed with accessibility in mind, featuring wide doors, roll-up sidewalls, and clearspan interiors that allow for easy loading, unloading, and movement of goods and equipment. The layout and configuration of the tent can be customized to optimize storage space and workflow efficiency.

FQA:

1: Are you a trading company or manufacturer?

We are manufacturer, so we can give you competitive prices.

2: What are the types of tent?

Have herringbone tent pagoda tent dome tent, etc

3: How many people can a tent hold?
