ET	18m	3.3m	6.01m	5m	152x119x3.5mm(4-channel)

Customized size is available.

Here are some common features of these tents:

Clear Span Design: The clear span design eliminates the need for interior support poles or columns, maximizing usable space and creating an unobstructed interior layout. This allows for flexible event planning and configuration, accommodating various seating arrangements, stages, dance floors, and other event elements.

Durable Frame Construction: Heavy-duty clear span party tents are typically constructed with sturdy aluminum or steel frames that provide structural integrity and stability. The frame components are engineered to withstand heavy loads, high winds, and other environmental factors, ensuring the safety and stability of the tent.

Weather-Resistant Fabric Cover: The fabric cover of clear span party tents is made from high-quality materials such as PVC or polyester, treated for waterproofing, UV resistance, and flame retardancy. This provides protection against rain, wind, sun, and other weather conditions, allowing events to proceed regardless of the forecast.

Customizable Size and Layout: Clear span party tents come in a variety of sizes, ranging from small to large, to accommodate events of different scales. They can be easily expanded or reduced in size by adding or removing sections, providing flexibility to meet changing event requirements.

Transparent or Translucent Panels: Some clear span party tents feature transparent or translucent panels in the sidewalls or roof, allowing natural light to enter the tent during the day and providing a clear view of the surrounding landscape. This creates a bright and airy atmosphere inside the tent, enhancing the overall ambiance of the event.

Climate Control Options: To ensure guest comfort in varying weather conditions, clear span party tents may offer climate control options such as heating, cooling, and ventilation systems. These systems help regulate temperature and airflow inside the tent, ensuring a pleasant environment for guests throughout the event.

Modular Design: Clear span party tents have a modular design that allows for easy expansion or reduction in size to accommodate events of different sizes and layouts. Additional sections or extensions can be added to increase capacity or create separate areas for different functions, providing flexibility to meet changing event requirements.

FAQ :

Q: Can you print our logos on the tent?

Yes. Customized logos can be printed on the tent fabric according to your requirements.

Q: Is that factory price?

Yes. We assure you all prices are based on factory.

Q: Does your tent be able to installed repeatedly? What is the life span?

Our tents can be assembled and dismantled easily and repeatedly with small transportation size. The lifespan of aluminium framework can reach 15-20 years, and 5-8 years for PVC fabrics depending on different conditions of usage.

Q: What documents are available?

A full range documents including structural drawings, packing list, installation manual and relative certificates can be provided. Moreover, customs declaration is provided. We provide one-stop service for you.
