Big tent-20	20	5	4/5	7.2	112*203*4.5
Big tent-25	25	5	4/5	8	112*203*4.5
Big tent-30	30	5	4/5	8.8	113*259*5.5
Big tent-40	40	5	4/5	10.5	120*300*6.0
Big tent-50	50	5	4/5	12	120x350x5.0

Frame	High Reinforce Aluminum, anti-rust surface, GB6061-T6 ;100%"FENGLV "Aluminum Material Guaranteed;
	It can be used more than 30 years
Roof cover	850g/m ² and 660g/m ² Double PVC-Coated Polyester, flame retardant, UV resistance, waterproof, comply to DIN 4102 B1, M2 (European standard); 100% XingYiDa PVC Material Guaranteed - Perfect Fabric Cover Brand in China Recently.
Sidewall	Allowed Temperature Condition: -40 to +70 temperature
	Max Wind Speed Allowance: 120km/h
	Snow Load: 75kg/sqm
Connecti on	Hot-DIPPED Galvanized Steel Connections; 100% Zinc Shine Hot Dip Galvanizing Guaranteed

Here are some of the key benefits:

Cost-Effective: PVC canopy storage tents are typically more affordable than permanent storage structures like warehouses or sheds. They offer a cost-effective alternative for short to medium-term storage needs.

Quick Assembly: These tents are relatively easy to set up and can be assembled quickly compared to traditional buildings. This quick installation process saves time and labor costs.

Customizable Sizes: Canopy storage tents come in various sizes, allowing for customization based on storage requirements. Whether you need a small shelter for garden equipment or a large warehouse for inventory, there's a size to fit your needs.

Weather Protection: The PVC material used in these tents is durable and weather-resistant, providing protection against rain, snow, UV rays, and other elements. This helps to keep stored items safe and dry.

No Foundation Required: Unlike permanent structures, canopy storage tents typically do not require a concrete foundation. This reduces construction costs and allows for installation on various surfaces, including gravel, asphalt, or compacted soil.

Natural Light: Many PVC canopy storage tents feature translucent roof panels or windows, allowing natural light to enter the interior. This can reduce the need for artificial lighting during the day, saving on energy costs.

Temporary or Permanent Use: While designed for temporary use, PVC canopy storage tents can also serve as semi-permanent storage solutions. With proper maintenance and care, they can last for several years, offering a longer-term storage option if needed.

Minimal Maintenance: PVC canopy storage tents require minimal maintenance compared to traditional buildings. Periodic cleaning and inspection are typically all that's needed to ensure they remain in good condition.

FAQ :

Q1:Are you a factory or trading company?

A:We are a professional tent factory. So we can offer you a competitive price and a fast delivery time, can also control the quality well and supply constantly to insure the quantity.

Q2: What is the life span of your tents?

A: Life span of the aluminium is 15-20 years, PVC fabric is 5-6 years. Good discount will be given to you to get a new fabric from us after 5-6 years.

Q3: How to assemble your tents?

A: We will provide the manual and video for you to study. If you need, we can send a technician to help you in your country.
