40	5	4	10.4	18°			40×100m
50	5	4	13.9	18°			50×100m

Key features:

Structural Design:

A-Shape Roof: The distinctive A-shape roof provides a stylish and classic appearance, often reminiscent of traditional architecture, making it suitable for formal events like weddings and corporate functions.

Sturdy Frame: Typically constructed with galvanized steel or aluminum frames, these tents offer robustness and durability, ensuring stability even in adverse weather conditions.

Materials:

High-Quality Fabric: The canopy is usually made of PVC or PE (polyethylene) materials. PVC versions are favored for their fire-retardant properties and higher durability, while PE canopies offer a cost-effective solution with good weather resistance.

UV Protection: The materials used often include UV protection, providing a comfortable atmosphere inside the tent by blocking harmful rays and reducing heat buildup.

Weather Resistance:

Waterproofing: These tents are designed to be 100% waterproof, making them ideal for outdoor events regardless of weather conditions. The materials and construction techniques ensure that rainwater is effectively kept out.

Wind Resistance: The sturdy frame and secure anchoring systems help the tent withstand strong winds, maintaining structural integrity and safety for the guests.

Versatility:

Modular Design: Many A-Shape marquee tents have modular capabilities, allowing multiple units to be connected for larger gatherings. This flexibility makes them suitable for various event sizes and configurations.

Multiple Entry and Exit Points: These tents often feature multiple doors and windows, enhancing ventilation and accessibility. The windows are usually clear or feature elegant designs to allow natural light inside while maintaining the tent's aesthetic.

Ease of Assembly:

Portable and Convenient: Despite their large size, A-Shape party tents are designed for relatively easy assembly and disassembly. The frame components are often labeled and can be quickly connected, making setup efficient and straightforward for event organizers.

Comprehensive Kits: These tents typically come with all necessary accessories, including stakes, ropes, and tension wires, to ensure a secure setup. Some packages also include storage bags for convenient transport and storage.

FQA:

1.Can you print our logos on the tent?

Yes. Customized logos can be printed on the tent fabric according to your requirements.

2.Is that factory price?

Yes. We assure you all prices are factory price.

3.Does your tent be able to install repeatedly?

Our tents can be assembled and dismantled and repeatedly with small transportation distance. The lifespan of aluminum framework can reach 15-20 years, and 5-8 years for PVC fabrics depending on different conditions of usage.
