#### Definition and Features

Clear marquees and tents are a type of event tent that features transparent materials, typically made of clear PVC, for the roof and sometimes the walls. This design allows for an abundance of natural light and unobstructed views of the surroundings, creating a unique and elegant atmosphere.

#### Advantages of Clear Marquees and Tents

**Visual Appeal:** The transparency of clear marquees offers a sophisticated and modern look, making them an attractive choice for various events. They allow guests to enjoy the surrounding scenery, whether it's a beautiful garden, a beach, or a city skyline.

**Natural Light:** The use of clear materials allows natural light to flood the interior, creating a bright and welcoming space. This reduces the need for artificial lighting during daytime events.

**Versatility:** Clear marquees can be used for a wide range of events, including weddings, corporate functions, parties, and more. They can be decorated and customized to fit the theme and style of the event.

**Weather Protection:** While they provide an open and airy feel, clear marquees still offer protection from the elements, including rain and wind, ensuring that events can proceed regardless of the weather.

#### Types of Clear Marquees and Tents

**Clear Span Marquees:** These are sturdy, modular structures with no interior support poles, providing a spacious and flexible interior layout. Clear span marquees are ideal for larger events.

**Frame Marquees:** Supported by a robust metal frame, these tents offer flexibility in terms of size and configuration. They can be set up on various surfaces and are suitable for both small and large gatherings.

**Pole Marquees with Clear Roofs:** These traditional-style marquees combine the classic look of pole tents with the modern touch of a clear roof. They are ideal for events where aesthetics are a priority.

#### FQA:

##### Q1:Are you a factory or trading company?

A:We are a professional tent factory.So we can offer you a competitive price and a fast delivery time,can also control the quality well and supply constantly to insure the quantity.

##### Q2: What is the life span of your tents?

A:Life span of the aluminium is 15-20 years,PVC fabric is 5-6 years.Good discount will be given you to get a new fabric from us after 5-6 years.

##### Q3:How to assemble your tents?

A: We will provide the manual and video for you to study.If you need,we can send a technician to help you in your country.

##### Q4:How to choose the size of tent?

A: The size depends on how many people you want to stand,sit or have dinner in this tent.And the size also depends on the land space you will put up this tent.Normally,we advise 1-1.5sq.m/person.
