Snow Load	75kg/
Resistant Temperature	-30 to +70
Features	Water Proof, UV Resistance, Fire Retardant
Application	Camping Hotel, Restaurant, Wedding, Party, Event, Exhibition, etc

Here's an introduction to Dome Tents House with Factory Price:

- 1. Design and Construction:** Dome tents are constructed with lightweight yet durable materials such as polyester or nylon fabric for the canopy and fiberglass or aluminum poles for the frame. The dome shape provides ample headroom and interior space, making them comfortable for sleeping and relaxing.
- 2. Easy Setup:** Dome tents are designed for quick and easy setup, typically requiring only a few simple steps. Most models feature color-coded poles and intuitive assembly instructions, allowing users to set up the tent in minutes without the need for specialized tools or expertise.
- 3. Weather Resistance:** Dome tents are engineered to withstand various weather conditions, including wind, rain, and mild snow. The rounded shape of the dome offers enhanced stability and aerodynamics, minimizing wind resistance and preventing water from pooling on the canopy.
- 4. Ventilation:** Many dome tents feature multiple ventilation panels, windows, and mesh vents to promote airflow and reduce condensation inside the tent. This helps to keep the interior cool and comfortable, even in hot and humid weather conditions.
- 5. Spacious Interiors:** Despite their compact footprint, dome tents typically offer generous interior space, with enough room to accommodate sleeping bags, camping gear, and other personal belongings. Some models also include vestibules or gear lofts for additional storage space.
- 6. Factory Pricing:** Dome tents are available at competitive factory prices, making them an affordable option for outdoor enthusiasts, camping organizations, event planners, and other bulk buyers. Factory pricing allows customers to purchase high-quality tents directly from manufacturers at lower costs compared to retail prices.

FQA:

1. How are the Shelter dome packed?

Shelter dome come with a wood crate, with instruction for customers to assemble themselves. Our standard packing is solid protection and easy for unloading & management on-site.

2. Where do you ship shelter dome to?
