Waterproof, UV resistant, fire retardant
DIN4102, B1, M2 / NFPA701

• Insulation layer

• Canvas

• Linen

• Jersey

• Radiation heat reflection coefficient: up to 85%;

• Moisture-proof

The primary materials commonly used in constructing these tents include:

Canvas: Canvas is a traditional material known for its durability, breathability, and natural aesthetic appeal. It provides excellent insulation, making it suitable for use in various weather conditions. Canvas tents are often treated with waterproof coatings to enhance their weather resistance.

Polyester: Polyester fabrics are lightweight, durable, and water-resistant, making them a popular choice for glamping dome tents. They offer excellent UV resistance and are quick-drying, making them suitable for use in sunny or rainy conditions.

PVC (Polyvinyl Chloride): PVC fabrics are known for their strength, durability, and weather resistance. They provide excellent waterproofing and can withstand harsh outdoor environments, making them ideal for glamping dome tents that require reliable protection from the elements.

Polyethylene (PE): Polyethylene is a lightweight and affordable material commonly used in the construction of dome tents. It offers good water resistance and UV protection, although it may not be as durable as other materials.

Mesh: Mesh panels are often incorporated into glamping dome tents to provide ventilation and airflow while keeping insects out. Mesh materials are typically made from polyester or nylon and offer breathability and visibility.

Steel or Aluminum Frame: The frame of glamping dome tents is usually made from steel or aluminum for strength and stability. These materials are lightweight and resistant to rust and corrosion, ensuring the structural integrity of the tent.

FQA:

1. How are the Shelter dome packed?

Shelter dome come with a wood crate, with instruction for customers to assemble themselves. Our standard packing is solid protection and easy for unloading & management on-site.

2. What is the leading time from ordering a dome tent?
