

Outdoor Large Holiday Hotel Commercial Transparent Canvas Geodesic Dome House Tent

Our Product Introduction

Basic Information

- Place of Origin: Guangdong
- Brand Name: Tendars
- Certification: ISO9001, SGS Coc, CE
- Model Number: Small tent
- Minimum Order Quantity: 25 square meters
- Price: Reconsideration
- Packaging Details: 1, The aluminium frame structure packed into the bubble film 2, the pvc fabric roof cover and sidewalls are packed into the PVC fabric carry bag; 3, Hardware packed into the box.
- Delivery Time: 18days or To be negotiated
- Payment Terms: L/C, T/T, Western Union, MoneyGram
- Supply Ability: 50000 Square Meters per Month

Product Specification

- Product Name: Geodesic Dome House Tent
- Usage: Outdoor Activities
- Size: Customized Size
- Payment Term: 50% Down Payment And 50% Balance After Delivery
- Frame Material: Galvanized Pipe
- Life Span: 10 -15 Years
- Color: Customized Color
- Wind Resistance: 100km/h
- Highlight: **Outdoor commercial geodesic dome tent, Large transparent canvas dome house, Holiday hotel geodesic tent with warranty**

Product Description

Outdoor Large Holiday Hotel Commercial Transparent Canvas Geodesic Dome House Tent For Sale

Product Description:

Place of Origin	China
	Guangdong
Cover Material	PVC Coated Textile
Frame Material	850gPVC +Galvanized Tube, Tempered Glass+Aluminum Alloy,
Service Life	More than 15 years
Fixing Solutions	Ground Anchor, Expansion Bolt, Weight Plate, etc.
Applications	Party, Event, Exhibition, Wedding, Gamping, etc.
Ground Situations	Grassland, Earth Land, Asphalt, Cement Ground, etc.
Application	Hotel,Party,Activity,Cinema,Release Conference,Wedding,Restaurant,Exhibition , etc.
Usage	Advertising Display

Details:

Dome tent diameter	Dome tent height	Dome tent the measure of area	Dome tent volume
4	2	12.56	1
5	2.5	19.625	1.2
6	3	28.26	1.6
8	4	50.24	2.8
10	5	78.5	3.2
12	6	113.04	5.2
15	7.5	176.625	7
20	10	314	9
25	12.5	490	15
30	15	708.5	25
35	17.5	961.625	30
40	20	1256	50
45	22.5	1589.5	55
50	25	1926.5	60
55	27.5	2374.5	80
60	30	2826	100

Key advantages:

Strength and Stability: Geodesic dome structures are renowned for their strength and stability. The interconnected triangular panels distribute structural stress evenly throughout the dome, allowing it to withstand high winds, heavy snow loads, and other harsh weather conditions better than traditional tents or buildings.

Versatility: Geodesic dome house tents come in various sizes and configurations, making them versatile for different purposes. They can be used as temporary shelters for events, permanent housing, recreational spaces, greenhouses, or even as observatories.

Efficient Use of Space: The spherical shape of geodesic domes maximizes interior space while minimizing materials needed for construction.

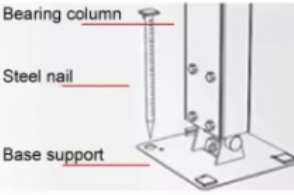

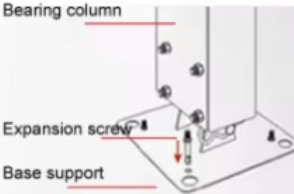

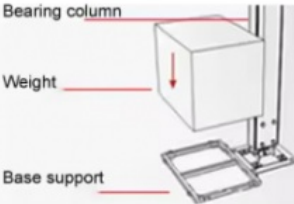

This efficient use of space makes them ideal for compact living or as functional event spaces where every square foot counts.

Natural Light and Ventilation: Many geodesic dome house tents feature transparent or translucent panels that allow natural light to penetrate the interior, creating a bright and inviting atmosphere. Additionally, the dome's shape promotes natural airflow, aiding in ventilation and temperature regulation.

Energy Efficiency: The spherical design of geodesic domes reduces the surface area exposed to external elements, resulting in less heat loss in cold climates and reduced cooling requirements in hot climates. This inherent energy efficiency can lead to lower utility bills and a smaller environmental footprint.

Quick Assembly and Portability: Geodesic dome house tents are often designed for easy assembly and disassembly, making them portable and suitable for temporary installations or events. Many models feature modular components that can be transported and set up quickly without the need for specialized tools or skills.

Install method:

Installation environment	Installation materials	Installation diagram
If the ground is the loose ground such as the sand and lawn, It can use steel nail to fix.	 <p>Steel nail</p>	 <p>Bearing column Steel nail Base support</p>
If the ground can be damaged such as cement floor or tarmac floor, It can be use the expansion screw to fix.	 <p>Expansion screw</p>	 <p>Bearing column Expansion screw Base support</p>
If the ground can't be damaged such as marble and tile, it must use the weight plate.	 <p>Weight Weight plate</p>	 <p>Bearing column Weight Base support</p>

FQA:

1. how can we guarantee quality?

Always a pre-production sample before mass production;
Always final Inspection before shipment;

2. what can you buy from us?

Tents and Accessories.

3. why should you buy from us not from other suppliers?

A complete industrial chain, from aluminum extrusion molding and processing, can be customized style and size, one-stop solution to the awning room, faster delivery, complete after-sales

4. what services can we provide?

Accepted Delivery Terms: FOB, CFR, CIF, EXW, Express Delivery
Accepted Payment Currency: USD;
Accepted Payment Type: T/T, L/C, Credit Card, PayPal, Western Union, Cash;
Language Spoken: English, Chinese

5. How can you make sure we will receive the product with high quality?

In the processing flow, we have a series of detection machine to control the quality. Before loading, our QC will inspect each shipment and all raw material is according to foodstuff requirement.

6: Can the customer return the goods if they don't like it?

Customized products are not support returned

7:How to calculate the freight?

The freight of each area is different, please consult customer service for details. thank you
