50m	1963.49m ²	25m		

Advantages:

1. Flexible and convenient

Easy installation and disassembly, adapted to different sites.

2. Safety and Solid

Structural stability, resistance to wind and snow shock.

3.High and fashion

Changing style in tarpaulin makes products for outdoor activities to bring better results, Weddings, parties, festivals, trade shows and other outdoor events is good.

Features:

PVC Material: The tent's outer covering is typically made of PVC (Polyvinyl Chloride), a strong and waterproof material. PVC provides excellent

protection against rain, wind, and UV rays, keeping the interior dry and comfortable.

Aluminum Frame: The tent's frame is constructed from lightweight yet sturdy aluminum poles or tubes. Aluminum is corrosion-resistant and offers good structural integrity, making it suitable for various outdoor environments.

Quick Assembly: PVC camping aluminum tents are designed for easy and quick setup. The tent poles are often color-coded or numbered to facilitate assembly, and many models feature a simple pole clip or sleeve system for hassle-free installation.

Portability: Despite their robust construction, PVC camping aluminum tents are designed to be portable and lightweight. They can be easily packed into a carrying bag or case for transportation to different camping sites or outdoor events.

Weather Resistance: These tents are engineered to withstand adverse weather conditions encountered during camping trips, such as rain, wind, and even snow. The PVC material and aluminum frame provide excellent resistance to water penetration and structural stability in windy conditions.

Ventilation: Many PVC camping aluminum tents feature built-in ventilation systems to improve airflow and reduce condensation inside the tent. This helps regulate temperature and moisture levels, enhancing comfort during warm weather or humid conditions.

FQA:

Q:Are you factory?

Yes.we are factory.

Q:Can I put my logo on the tent?
