Product Description

Large Capacity Aluminum Frame Large Tent Heavy Duty Marquee Tent For Convention

Key Features and Design

Aluminum frame large tents are distinguished by their durable framework, typically constructed from high-quality aluminum alloy. This lightweight yet strong material allows for easy transport and assembly while ensuring the tent remains sturdy and resistant to weather conditions. Functionality and Applications

These tents serve a wide range of applications, including:

Events and Celebrations: Ideal for weddings, parties, corporate events, and festivals, providing a spacious and customizable venue.

Trade Shows and Exhibitions: Used as exhibition halls or booths to showcase products and services in a professional and accessible setting.

Sports and Recreational Activities: Utilized for sporting events, temporary gymnasiums, and recreational facilities to accommodate spectators and participants.

Emergency Shelters and Disaster Relief: Deployed as temporary shelters during emergencies or for humanitarian purposes, offering immediate relief and protection.

Advantages

Versatility: They come in various sizes and configurations, allowing for customization to meet specific event requirements and venue constraints.

Quick Assembly: Designed for rapid deployment, these tents can be set up efficiently with minimal labor and equipment, making them suitable for time-sensitive events.

Durability: The aluminum framework is corrosion-resistant and durable, ensuring longevity and reliability even with frequent use and exposure to varying weather conditions.

Scalability: Capable of spanning large areas without the need for internal support columns, providing unobstructed space and flexibility in layout and usage.

Customization Options: Offered with options for sidewalls, flooring, lighting, HVAC systems, and branding opportunities to enhance functionality and aesthetic appeal.

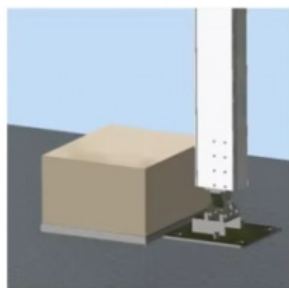

Description :

Main Profile	Material: Hard Pressed Extruded Aluminum Alloy (T6061/T6) Features: Stainless, Lightweight
Covering	Roof Material: 750g/m2 or 850g/m2 PVC for roof cover,650g/m2 PVC for sidewall.High quality double PVC-coated polyester textile, 100% waterproof, flame retardant to DIN4102 B1 , UV resistant, tear resistant, self-cleaning ability Wall System: Sandwich Panel, ABS Solid Panel Wall, Trapezoidal Steel Wall, PVC Coated Polyester Fabric.
Components	Superior Enclosure with hot dip galvanized steel.

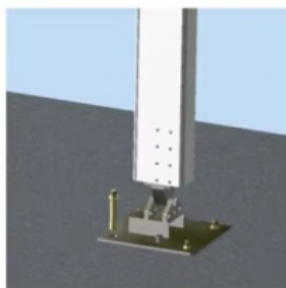

Item	Width(m)	Eave Height(m)	Ridge Height(m)	Longest Parts(m)
S3	3	2.5	3	2.95
S4	4	2.5	3.2	3.95
S5	5	2.5	3.4	4.85
M12	12	4	5.9	5.4

M15	15	4	6.3	8.61
M18	18	4	6.8	8.61
L25	25	6	10	8.68
L30	30	6	11	10.61
L40	40	6	12.6	10.61

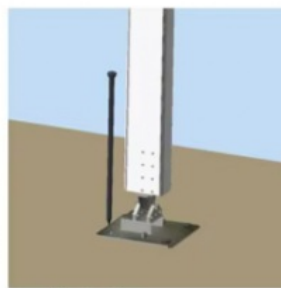

Fixing method:

Loading plate
Marble or tile ground

Expansion screw
Cement ground

Steel anchor
Sand or grass ground
