## Aluminum Alloy Storage Marquee Tent Industrial Workshop Storage Event Outdoor

Our Product Introduction

### Basic Information

- Place of Origin: Guangdong
- Brand Name: Tendars
- Certification: ISO9001, SGS, Coc, CE
- Model Number: Big tent
- Minimum Order Quantity: 25 square meters
- Price: Reconsideration
- Packaging Details: 1, The aluminium frame structure packed into the bubble film 2, the pvc fabric roof cover and sidewalls are packed into the PVC fabric carry bag; 3, Hardware packed into the box.
- Delivery Time: 18days or To be negotiated
- Payment Terms: L/C, T/T, Western Union, MoneyGram
- Supply Ability: 50000 Square Meters per Month

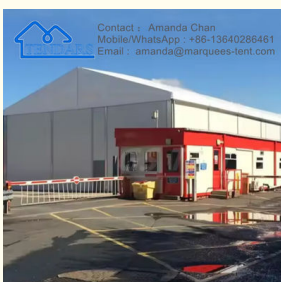

### Product Specification

- Product Name: Storage Marquee Tent
- Frame Material: High Reinforced Aluminum, Anti-rust Surface, GB/T 6061-T6 Standard
- Ridge Height: Custom
- Span Width: Custom
- Side Height: 2.6m
- Bay Distance: 3m/5m
- Fabric: Double PVC-Coated Polyester
- Feature: UV-resistant Waterproof
- Highlight: Aluminum Alloy Storage Marquee Tent, Industrial Workshop Storage Marquee Tent, Outdoor Storage Marquee Tent

## Product Description

### Aluminum Alloy Storage Marquee Tent Industrial Workshop Storage Event Outdoor

#### Key principles:

**Versatility:** Storage marquees are highly versatile structures that can be used for a wide range of storage applications. They can accommodate varying sizes and types of goods, equipment, or vehicles, making them suitable for industries such as agriculture, construction, events, and warehousing.

**Quick Assembly and Disassembly:** These tents are designed for rapid deployment and dismantling. They often feature modular components that are easy to transport and assemble on-site without the need for extensive construction or specialized tools.

**Cost-Effectiveness:** Compared to permanent buildings or warehouses, storage marquees offer a cost-effective alternative. They require lower initial investment and maintenance costs while providing adequate protection and storage space.

**Customization:** Storage marquees can be customized to meet specific storage requirements. They come in various sizes, shapes, and configurations, allowing for flexible layouts and adaptations based on the items being stored and the available space.

**Durability and Weather Resistance:** High-quality storage marquees are constructed from durable materials such as PVC fabric and robust steel or aluminum frames. This ensures they can withstand adverse weather conditions including wind, rain, and snow, providing reliable protection for stored items.

**Mobility:** Unlike permanent structures, storage marquees are portable and can be relocated as needed. This mobility is particularly advantageous for temporary storage solutions or in situations where operational flexibility is required.

**Accessibility and Space Utilization:** Storage marquees typically feature wide entry points such as roll-up doors or sliding curtains, facilitating easy access for loading and unloading. They also maximize interior space utilization, allowing for efficient organization and storage of goods.

**Compliance and Safety:** Modern storage marquees are designed to comply with safety regulations and standards. They incorporate features such as fire-resistant materials, adequate ventilation, and secure anchoring systems to ensure the safety of stored goods and personnel.

#### Description :

Tent	Span Width	Bay Distance	Side Height	Ridge Height	Roof Pitch	Aluminum Profile
Big tent-3	3m/9.8'	3m	2.6m	3.2m	20°	84x48x3mm
