Aluminum Alloy Workshop Industrial Storage Tent Marquee Tent For Events Outdoor

Our Product Introduction

Basic Information

- Place of Origin: Guangdong
- Brand Name: Tendars
- Certification: ISO9001, SGS, Coc, CE
- Model Number: Big tent
- Minimum Order Quantity: 25 square meters
- Price: Reconsideration
- Packaging Details: 1, The aluminium frame structure packed into the bubble film 2, the pvc fabric roof cover and sidewalls are packed into the PVC fabric carry bag; 3, Hardware packed into the box.
- Delivery Time: 18days or To be negotiated
- Payment Terms: L/C, T/T, Western Union, MoneyGram
- Supply Ability: 50000 Square Meters per Month

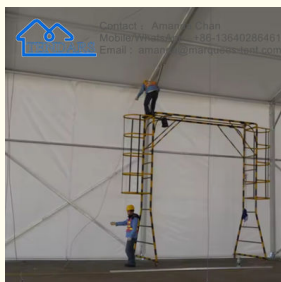

Product Specification

- Product Name: Industrial Storage Tent
- Pole Material: 750g/m2 PVC Polyester Coated Fabric
- Sidewalls PVC Fabric: Half Blackout 650g/m2
- PVC Function: Water-proof / Fire-proof / Self-cleaning
- Fire Resistance: B1 Grade EU M2 Grade
- Wind Loading: 120km/hour
- Usage: Events, exhibitions, parties, wedding, activities
- Available Size: Custom
- Highlight: **Outdoor Workshop Industrial Storage Tent, Outdoor Aluminum Alloy Storage Tent, Events Aluminum Alloy Storage Tent**

Product Description

Aluminum Alloy Workshop Industrial Storage Tent Marquee Tent For Events Outdoor

Key features:

Durability and Construction:

Heavy-Duty Materials: Industrial storage tents are constructed from robust materials such as galvanized steel frames and durable PVC or PE fabric covers. These materials ensure strength and resilience against weather elements and wear.

Weather Resistance: The fabric covers are often UV-resistant, waterproof, and flame-retardant, providing protection against sun exposure, rain, snow, and wind.

Customizable Sizes and Configurations:

Modular Design: They are available in a range of sizes, from small units suitable for equipment storage to large structures capable of housing machinery or inventory.

Flexible Layout Options: Industrial storage tents can be customized with additional features such as partition walls, ventilation systems, and flooring options to suit specific storage needs.

Quick Assembly and Mobility:

Easy Installation: These tents are designed for rapid deployment and can be assembled quickly without the need for permanent foundations.

Portable: They are often designed to be dismantled and relocated as needed, providing flexibility in adapting to changing operational requirements or site locations.

Ventilation and Climate Control:

Air Circulation: Ventilation options such as windows, vents, or fans can be integrated to maintain airflow and regulate internal temperatures.

Climate Control: Depending on the application, industrial tents may accommodate heating or cooling systems to protect stored items from temperature fluctuations.

Security and Accessibility:

Entry Options: Industrial storage tents can feature large, roll-up doors or sliding doors for easy access by forklifts, trucks, or personnel.

Security Features: Lockable doors and sturdy perimeter fencing options enhance security, safeguarding valuable equipment, inventory, or materials stored inside.

Compliance and Safety:

Structural Integrity: Compliance with safety standards ensures that industrial storage tents are structurally sound and capable of withstanding environmental loads and operational stresses.

Fire Safety: Materials used often include fire-retardant properties to mitigate fire hazards, promoting workplace safety and regulatory compliance.

Cost-Effective Storage Solution:

Budget-Friendly: Compared to permanent structures, industrial storage tents offer a cost-effective alternative for expanding storage capacity or addressing temporary storage needs.

Operational Efficiency: They support efficient inventory management and logistics by providing accessible, organized storage space directly on-site.

Description :

Main Frame: High Reinforce Aluminum, anti-rust surface, GB6061-T6 ;100%Aluminum Material Guaranteed; It can be used more than 30 years.

Fabric Cover: 850g/m² and 660g/m² Double PVC-Coated Polyester, flame retardant, UV resistance, waterproof, comply to DIN 4102 B1(European standard); 100% XingYiDa PVC Material Guaranteed - Perfect Fabric Cover Brand in China Recently. Connector: Hot-DIPPED Galvanized Steel Connections; 100% Zinc Shine Hot Dip Galvanizing Guaranteed.

Allowed Temperature Condition: -40°to +70°temperature

Max Wind Speed Allowance: 100km/h

Snow Load: 75kgm

Easy to be assembled and dismantled, movable. No pole inside, tent space can be 100% utilized.
