Product Description

Outdoor Hotel Geodesic Dome Tent Resort Luxury Igloo House With Bathroom

Advantages:

Geodesic dome tents have a distinctive and modern appearance that stands out in natural landscapes or urban environments. They often blend harmoniously with surroundings, offering a unique and memorable stay experience for guests.

Despite their compact footprint, dome tents provide a spacious interior due to their curved design. This allows for comfortable living spaces, ample headroom, and flexibility in interior layout and furnishings.

Geodesic dome structures are known for their strength and stability. They can withstand various weather conditions, including strong winds and snow loads, making them suitable for year-round use in different climates.

The spherical shape of dome tents promotes natural airflow and ventilation, enhancing thermal comfort inside. This can reduce the need for excessive heating or cooling, contributing to energy efficiency and sustainability.

Product Description:

Item Name	Outdoor Hotel Geodesic Dome Tent Resort Luxury Igloo House With Bathroom
Frame Material	Q235 Hot Galvanized Steel Tube With Baking Finish
Cover Material	850g/sqm PVC Coated Polyester Fabric
Size	From 4m(13ft) to 50m(164ft) Diameter
Color	White, Transparent, Green, Gray or Customized
Life Span	8-10 Years
Wind Load	75kg/sqm
Snow Load	80-100kg/m ²

FQA:

1.Can you print our logos on the tent?

Yes. Customized logos can be printed on the tent fabric according to your requirements.

2.Does your tent be able to install repeatedly?

Our tents can be assembled and dismantled and repeatedly with small transportation distance. The lifespan of aluminum framework can reach 15-20years, and 5-8 years for PVC fabrics depending on different conditions of usage.

3.What documents are available?

A full range documents drawings,packing lists, installations manual and relatives certificates can be provided.Customs declaration is provided. We provided one-stop service for you.

4.Is your tent strong and stable enough?

How about the wind loading? Yes.The main frameworks(upright support and roof beam) are manufactured with high impact extruded anodized aluminum(6061/T6).So our tent structure is safe and strong and can be resist wind speed up to 100 km/hr.
