Product Description

Hotel Glamping Dome Tent Transparent Resort Hotel Tent For Outdoor Camping

Design and Features

Dome Structure: The distinctive dome shape not only stands out aesthetically but also offers structural benefits such as spacious interiors and efficient use of space.

Luxurious Interiors: Designed with upscale furnishings, comfortable bedding, and amenities akin to those found in traditional hotel rooms. This includes en-suite bathrooms, heating or cooling systems, and cozy seating areas.

Panoramic Views: Many dome tents are equipped with large windows or transparent panels that provide stunning panoramic views of the surrounding nature, enhancing the guest experience.

Privacy and Seclusion: Despite their openness, dome tents often offer privacy through thoughtful placement and design, ensuring guests feel secluded yet connected to nature.

Product Description:

Hotel glamping dome tents offer a unique and luxurious accommodation experience that combines the comforts of a hotel with the adventure of camping. These dome-shaped structures provide a stylish and eco-friendly retreat amidst natural landscapes, appealing to travelers seeking a blend of comfort and outdoor immersion.

Details:

360°Transparent

The main dome is made of polycarbonate, it's 360D transparent. So, you can enjoy the beauty, starry-sky, sunrise and sunset without blocking. It's close to nature!

Stable & Safe

It's different from the ordinary PVC transparent bubble tents on the market, the PC Dome has high impact resistance and good protection performance. It is a very safe shelter when used in the wild.

The impact strength of PC endurance board is 250-300 times that of ordinary glass!

100% UV Resistance

There is an anti-ultraviolet co-extrusion layer on the surface to prevent the resin from aging and yellowing caused by sunlight and ultraviolet rays. The surface co-extruded layer has chemical bonds to absorb ultraviolet light and convert it into visible light. It is very suitable for protecting valuable artworks and exhibits from UV damage. It's 100% UV resistance with double-sided 100μ UV coating.
