Features: Stainless	
Cover:	Density: 850g/sqm double coated blackout white PVC
650g/sqm translucent white PVC	
Material: PVC coated polyester fabric	
Features: Water proof, UV resistance, fire retardant (DIN4102, B1, M2)	
Components:	Superior enclosure with hot dip galvanized steel

Introduction:

Design and Structure: The geodesic dome design is renowned for its aerodynamic efficiency and structural integrity. This prefab version of the dome is pre-engineered and prefabricated for easy assembly, reducing construction time and minimizing environmental impact. The dome's geometric shape allows for optimal use of space and natural light, providing a panoramic view of the surrounding landscape while maintaining a compact and efficient footprint.

Sustainability and Efficiency: The Eco Hotel Prefab Geodesic Dome Tent is built with sustainable materials, including recycled and eco-friendly components. Its construction prioritizes energy efficiency, incorporating features such as natural insulation, solar panels, and rainwater harvesting systems. These elements contribute to a lower carbon footprint and a commitment to reducing environmental impact, aligning with eco-friendly principles.

Comfort and Luxury: Inside the dome, guests will find a blend of modern luxury and rustic charm. The interior is designed to offer a high level of comfort with plush furnishings, climate control systems, and high-quality finishes. Despite its eco-friendly focus, the dome ensures a cozy and stylish living space, featuring amenities such as comfortable beds, private bathrooms, and elegant decor.

FQA:

Q: Are you factory?

Yes, we are factory.

Q:Why do I need to know the use of tents and local climate?

To know the use of tent and local weather, I can provide you with advice better, and it is very useful for our designer's work.
