Product Description

Pvc Camping Dome Hotel Tent Dome House Clamping Tent Glass Dome House Tent

Pvc Camping Dome hotel canopies usually have the following structural features:

The dome shape gives the tent a unique appearance, and the interior space is open, giving people a novel living experience. Generally, aluminum alloy and other materials are used to make the frame, which has high strength and stability and can withstand a certain amount of wind and weight. There are no pillars to block the interior of the tent, which can maximize the use of space and facilitate layout and activities. This tarpaulin has waterproof, fireproof, anti-ultraviolet and other properties, which can effectively resist the influence of the outdoor environment, while maintaining good light transmission, so that the occupants can enjoy the external scenery. Reasonable structural design facilitates air circulation and provides a comfortable interior environment. It is usually modular or assembled structure, which is relatively simple and quick to set up and disassemble, and can quickly set up a camping site. It can be flexibly arranged and adjusted according to different terrain and needs. In terms of size, tarpaulin color, interior decoration, etc., it often has a certain customizability to meet the individual needs of different customers.
