Product Description

Luxury Camping Hotel Tent Resort House Hotel With Bathroom Canvas Safari Tent

Notable features:

The canvas material itself has excellent wear and tear resistance. In the complex environment of the field, it can withstand the scratching of branches, thorns, etc., and is not easy to damage. Its thick texture also makes the tent have a long service life. Specially treated canvas has excellent water resistance. Whether it is rain or wet ground, it can effectively prevent moisture from penetrating into the inside of the tent, keep the inside dry, and provide a comfortable resting space for hunters. The density of the canvas is higher, which can block the invasion of the cold wind to a certain extent. At the same time, the good thermal performance makes the temperature inside the tent relatively stable in cold weather, providing a warm shelter for hunters. Usually using colors similar to the natural environment, such as green, brown, etc., helps to hide better in the wild environment, is not easy to be detected by prey, and improves the success rate of hunting. The interior layout is carefully designed and there is usually enough space for hunting tools, gear and personal items. At the same time, it can provide a comfortable sleeping area, so that hunters can fully relax when they rest.

Product Description:

Product Name	Luxury Camping Hotel Tent Resort House Hotel With Bathroom Canvas Safari Tent
Size	5.5mx9m
Frame Material	Solid wood timber beam or Steel beam framing (Dia. 100mm)
Support Size	D100mm
