Product Description

Outdoor Aluminum Camping Hotel Dome House Glass Tent For Glamping Event

Key Features:

The tent is built in a geodesic dome shape, which offers a spacious interior and excellent structural stability. This design also provides a visually striking and modern appearance. Equipped with large glass panels or windows, the tent provides unobstructed views of the surrounding landscape, allowing guests to enjoy nature from the comfort of their room. Features high-end furnishings including comfortable beds, stylish decor, and modern amenities. Interiors are often designed to include en-suite bathrooms, air conditioning or heating, and other comforts typically found in luxury accommodations. Constructed from weather-resistant and high-quality materials, including reinforced glass and durable fabrics, ensuring longevity and protection against the elements. The extensive glass panels allow for ample natural light and fresh air, creating a bright and airy living space. Many designs also include ventilation options to enhance comfort. Often includes a private deck or terrace, providing additional space for relaxation and outdoor enjoyment, such as dining or lounging.

Product Description:

The glass dome tent is made of high-strength aluminum alloy framework, the wind resistance, snow load capacity and service life all have been greatly improved, it can be adapted to various harsh outdoor environments. The surface is covered with double-layer hollow glass, and you can also choose a lower-cost single layer hollow glass. The combination of the two materials brings a more unique high-end and elegant appearance to the spherical glass tent, so it brings good effects for high-end tent hotels, high-end outdoor restaurants, high-end commercial exhibitions, etc.

The safety and environmental endurance are greatly improved, which can make up for the deficiency of conventional PVC geodesic dome tent which can't adopt to the harsh application environment, and the appearance value of the glass dome tent has also been greatly improved. The whole structure is like a dreamy crystal house, it is very popular in the market currently and is very suitable for high-end scenic campsite to purchase and use!

Dome frame :	The glass geodesic dome tent main frame: We usually use High strength 6061-T6 aluminum alloy profile +baking paint for the main frame. It can be fully applied in any coastal climate that may have high erosion or high humidity and rain forest climate.
Dome Cover :	The glass geodesic dome tent main cover: We usually use double-layer insulating glass (5+9+5mm) or single-layer glass (6mm)
Surface material:	Hollow/single-layer coated tempered glass

Life span:	15-20 years
