## Product Description

### Luxury Modern Hotel Tent Hotel Resort And Garden Camping Tent With Bathroom

#### Advantages:

Using high-strength aluminum alloy frame, with light weight, high strength, corrosion resistance, can be stable in various outdoor environments. For example, 6082/t6 aluminum alloy profiles are often used in tent frames to improve stability. Tarpaulin selection of high-quality tarpaulin, such as imported double-sided high flame retardant pvc material, with wind, rain, flame retardant performance, and wind resistance up to 8-10, some also have anti-ultraviolet, self-cleaning and other functions, can effectively protect the outdoor hotel personnel and items.

In the production process, attention to detail and quality control, the use of advanced processing technology and strict inspection standards to ensure the accuracy and quality of each component, such as the welding process of the frame, the sewing process of the tarpaulin, so that the overall structure of the tent is strong and durable.

Can provide a variety of styles and shapes of the tent, such as chevron, spire, arc, polygon, etc., to meet the different outdoor hotel style and site needs. Can be customized according to the specific requirements of customers, including the size of the tent, span, height, side height, color, etc., can also combine the theme and characteristics of the outdoor hotel, design a unique appearance and internal layout, such as customized ceiling for the hotel, adding transparent Windows or decorative elements.

Included Accessories	* Assembly kits
	* Full complete installation manual and guidance
	* Construction Training and Site-Administration

#### FQA:

##### Q: How much do your eco products cost?

Each product is priced differently and there are a range of options available. In most cases we customise the eco tent to provide you a solution based on your unique idea, needs and climate. We recommend you provide us with a brief on your project so we can tailor a price based on your specific needs.

**Q: Do you make custom eco products?**

Yes, we do! All our products are based on set modular sizes however there is flexibility with the layout of the product. Windows and doors can be customized to suit your layout and the Eco Tents can be linked together creating larger living spaces. For larger projects, we can also create prototypes as per your project request.

**Q: How can you make sure we will receive the product with high quality?**

In the processing flow, we have a series of detection machine to control the quality. Before loading, our QC will inspect each shipment and all raw material is according to foodstuff requirement.

**Q: How to proceed an order?**

Firstly let us know your requirements. Secondly We quote according to your requirements or our suggestions. Thirdly customer confirm the artworks and pay deposit for formal order.

**Q: How long do you need to produce the goods?**

For products in stock, we can deliver to you within 5-10 days. The usual lead time for mass production is 20-45 days, depending on the order quantity.

**Guangzhou Tendars Tent Co., Limited**
