

Waterproof Grand Party Marquee Tents Extruded Aluminum Alloy Frame PVC Roof Cover Canopy Structure

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Tendars
- Certification: ISO 9001:2015, CE, SGS
- Model Number: Tendars
- Minimum Order Quantity: 100sqm
- Price: \$35/sqm
- Packaging Details: Steel frame wrapped in foam and PE film, PVC cover folded in waterproof bag, export-grade wooden pallet
- Delivery Time: 10-25 working days for heavy duty orders
- Payment Terms: T/T,L/C,Western Union
- Supply Ability: 200 Sets per Month

Product Specification

- Cover Material: 900gsm PVC Laminated Polyester
- Frame Construction: Hot-Dip Galvanized Steel Q235 Anchor Bolt
- Eave Height: 2.5m – 4.0m
- Wind Resistance: 110 Km/h Anchored
- Ridge Height: 4.0m – 7.0m
- Snow Load: 0.6 KN/m²
- Highlight: **Permanent Installation Heavy Duty Tent, Anchor Bolt Steel Frame Marquee, 900gsm PVC Semi Permanent Construction**

Permanent Installation Heavy Duty Construction Party Marquee Tent

Our tendars tent is a premium heavy duty construction party marquee tent engineered to deliver exceptional structural integrity and long-term reliability. Built with hot-dip galvanized steel q235 bolt-down and 900gsm pvc laminated polyester, this tent is designed to withstand demanding environmental conditions while providing spacious, weather-protected event space.

Heavy Duty Construction Features

- **Robust Frame Construction:** Hot-Dip Galvanized Steel Q235 Bolt-Down provides superior strength-to-weight ratio and excellent corrosion resistance
- **Premium Cover Material:** 900gsm PVC Laminated Polyester with double-stitched seams, welded joints, and reinforced stress points
- **Wind Resistance:** Engineered and tested to withstand wind speeds of Up to 110 km/h with proper anchoring
- **Snow Load Capacity:** Structural design rated for 0.6 kN/m² snow load accumulation
- **Modular Bay System:** Width range 5m – 20m, length extendable 5m – 40m in 3m increments
- **Professional Engineering:** Each structure undergoes computational structural analysis for your specific site conditions
- **Hot-Dip Galvanized Connectors:** All steel connectors and fasteners are hot-dip galvanized to prevent rust
- **Reinforced Eaves and Ridges:** Additional bracing at all critical load transfer points

Heavy Duty Construction Standards

Our heavy duty tent construction adheres to rigorous engineering standards:

1. **Material Selection:** Only certified structural-grade aluminum alloy and galvanized steel with full material traceability
2. **Weld Inspection:** All welded joints undergo visual and dimensional inspection per ISO 9001 standards
3. **Load Testing:** Frame assemblies are subjected to static load testing at 1.5x design load
4. **Cover Testing:** PVC fabric tested for tensile strength, tear resistance, and UV aging per ISO 9001
5. **Pre-Delivery Assembly:** Complete trial assembly in factory to verify fit, alignment, and structural integrity
6. **Quality Documentation:** Mill certificates, test reports, and inspection records provided with each order

Applications

Ideal for outdoor weddings, corporate events, trade exhibitions, music festivals, temporary warehousing, disaster relief shelters, and sports facilities requiring heavy duty structural performance and extended service life.

Technical Specifications

Frame Construction	Hot-Dip Galvanized Steel Q235 Anchor Bolt
Cover Material	900gsm PVC Laminated Polyester
Width Range	5m – 20m
Length Range	5m – 40m
Eave Height	2.5m – 4.0m
Ridge Height	4.0m – 7.0m
Wind Resistance	Up to 110 km/h
Snow Load	0.6 kN/m ²

Contact our engineering team for site-specific structural calculations and heavy duty construction specifications.
