

Removable Large-Span Party Marquee Tents Extruded Aluminum Alloy Frame Sidewall Outdoor Shelter Structure

Our Product Introduction

Basic Information

Product Specification

- Frame Alloy: Hard Pressed Extruded Aluminium Alloy 6061/T6
- Frame Standard: European Standard EN 1090
- Span Size: 10m X 15m
- Cover Fabric: 850g/m² PVC Coated Polyester
- Peak Height: 2.8m - 3.2m
- Side Height: 2.0m
- Fire Rating: B1 / M2
- Wind Resistance: Up To 80 Km/h
- Assembly Time: 30-60 Minutes (2-3 Persons)
- Highlight: **5x10m aluminium alloy party marquee tent, large span outdoor event shelter, removable sidewalls party marquee tent**

Product Description

10x15m Stadium Aluminium Alloy 6061/T6 Party Marquee Tent

Core Advantage: Hard Pressed Extruded Aluminium Alloy 6061/T6 Frame

Our frame is manufactured using **hard pressed extruded aluminium alloy 6061/T6**, meeting rigorous **European standards**. This alloy is significantly harder and stronger than standard commercial aluminum, delivering exceptional structural integrity and corrosion resistance for long-term outdoor use.

Key Features

Superior Frame Material: Hard pressed extruded aluminium alloy 6061/T6 — substantially harder than standard aluminum alloy, European standard certified

Cover: Clear Window PVC Side Panel — 850g/m² high tenacity PVC fabric, 100% waterproof

Span: 10m x 15m — generous interior space for stadium-scale events

Peak Height: Up to 3.2m at center peak, providing excellent headroom

Fire Retardant: B1/M2 certified flame retardant fabric for public event safety

Wind Resistance: Engineered to withstand winds up to 80 km/h with proper anchoring

UV Protection: UV-treated fabric blocks harmful rays, extends canopy lifespan

Sidewalls: Optional removable sidewall kit with zippered door and window panels

Quick Assembly: Modular frame design enables fast setup and teardown

Color Options: Available in white, clear canopy, and custom colors upon request

Specifications

Frame Material	Hard pressed extruded aluminium alloy 6061/T6, European standard
Span	10m x 15m
Cover Fabric	850g/m ² PVC coated polyester, waterproof and fire retardant
Peak Height	2.8m - 3.2m
Side Height	2.0m
Fire Rating	B1 / M2

Applications

Perfect for stadium-scale events, weddings, trade exhibitions, corporate events, garden parties, outdoor dining, temporary storage, and commercial promotions.

Why Choose Our 6061/T6 Frame?

Unlike ordinary aluminum frames in budget marquees, our **hard pressed extruded aluminium alloy 6061/T6** delivers superior structural strength. The **European standard** extrusion process ensures every connector, beam, and leg resists bending, cracking, and corrosion — even after years of heavy commercial use.
