

Pagoda-Style Festival Party Marquee Tents A-Frame Waterproof High-Peak Beer-Garden Canopy Structure

Our Product Introduction

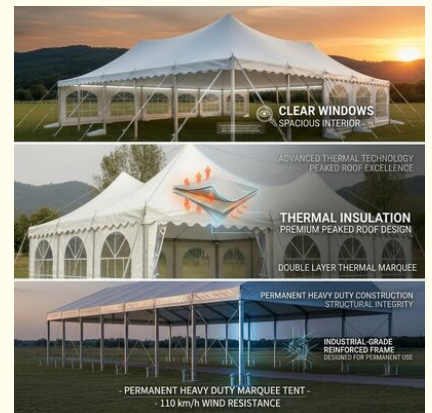

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: TENDARS
- Certification: ISO 9001:2015, DIN4102 B1, TUV Certified
- Model Number: PM-M-18x30m
- Minimum Order Quantity: 1 Set
- Price: USD 37-94 / Square Meter
- Packaging Details: PVC fabric folded in heavy-duty woven bags, aluminum profiles bundled with protective film, packed in export-grade plywood crates
- Delivery Time: 7-15 working days after deposit
- Payment Terms: T/T, L/C, Western Union
- Supply Ability: 10000 Square Meters per Month

Product Specification

- Frame Material: 6061/T6 Hard Pressed Extruded Aluminum Alloy
- Roof Cover: 850g/m² Double PVC Coated Polyester Fabric
- Sidewall Material: Multi-spire Pagoda Design
- Span Width: 18m
- Length: 30m
- Eave Height: 4.0m
- Ridge Height: 6.5m
- Wind Load: 100 Km/h (EN 13782 Standard)
- Snow Load: 0.5 KN/m²
- Flame Retardant: DIN4102 B1 / M2 Certified
- UV Resistance: UV Stabilized PVC Coating
- Temperature Range: -30°C To +70°C
- Bay Distance: 5m
- Capacity: Up To 540 Guests (Seated)

Product Description

18x30m Pagoda Style M Series Clear Span A-Frame Marquee Party Tent

This **18x30m** pagoda style m series clear span A-frame marquee tent is professionally engineered for festival beer garden and outdoor celebrations. Designed with a clear span structure that eliminates interior support poles, it provides an unobstructed event space ideal for seating up to **540 guests**.

Premium Frame Construction

The frame is manufactured from **6061/T6 hard pressed extruded aluminum alloy** with anodized anti-rust surface treatment, ensuring exceptional structural integrity and a service life exceeding 20 years. All aluminum profiles are precision-cut using advanced CNC machinery with tight tolerance control ($\pm 0.2\text{mm}$), guaranteeing seamless assembly and reliable performance under demanding conditions.

Weather-Resistant Roof Cover

The roof features **850g/m² double PVC-coated polyester fabric** with UV-stabilized acrylic surface treatment. This high-performance material delivers superior waterproofing, UV resistance, and flame retardancy certified to **DIN4102 B1 / M2** standards. The fabric withstands temperatures from -30°C to $+70^{\circ}\text{C}$, making it suitable for year-round deployment across diverse climate zones.

Pagoda Style Configuration

This model features multi-spire pagoda design, providing an elegant appearance and enhanced functionality for festival beer garden. The 4.0m eave height with 6.5m ridge height creates a spacious, airy interior atmosphere perfect for high-end events.

Key Technical Specifications

| Parameter | Specification |
|--------------------|--|
| Frame Material | 6061/T6 Hard Pressed Extruded Aluminum Alloy |
| Surface Treatment | Anodized Anti-Rust (Silver/Black/Custom) |
| Roof Cover | 850g/m ² Double PVC Coated Polyester, UV Stabilized |
| Span Width | 18m |
| Length | 30m (Modular, Expandable) |
| Eave Height | 4.0m |
| Wind Load Rating | 100 km/h (EN 13782) |
| Snow Load | 0.5 kN/m ² |
| Capacity | |
| Fire Certification | DIN4102 B1 / M2 |
| Temperature Range | -30°C to $+70^{\circ}\text{C}$ |
| Seating Capacity | Up to 540 guests |

Modular & Expandable Design

The modular bay system (5m standard bay distance) allows the tent length to be extended indefinitely. Multiple units can be combined side-by-side for extra-wide configurations, making this an infinitely scalable solution for events of any scale.

Rapid Installation

Certified installation crews can complete setup of this 18x30m structure within **1-2 working days**, significantly faster than permanent construction. The modular bolt-together design requires no heavy machinery, and the entire system can be disassembled, transported, and re-erected at different venues repeatedly.

Certifications & Quality Assurance

ISO 9001:2015 Quality Management System Certified
 TUV Structural Load Testing Passed
 DIN4102 B1 / M2 Flame Retardant Certification
 EN 13782 Wind Load Standard Compliant
 Full pre-assembly inspection before shipment
 Unique batch traceability system for all aluminum profiles

Customization Options

We offer comprehensive OEM/ODM services including custom sizes, colors (frame and fabric), logo printing on PVC covers, and tailored accessory packages to match your brand requirements.
