

Eco-Friendly Recyclable Party Marquee Tents Phthalate-Free PVC ISO Certified Sustainable Event Canopy Structure

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: TENTPRO
- Certification: CE, EN 13782, ISO 14001:2015, ISO 9001:2015, REACH, RoHS
- Model Number: PT-ECO-10X5-EU
- Minimum Order Quantity: 1 Set
- Price: USD 1,500-2,800 / Set
- Packaging Details: FSC-certified recycled cardboard carton, biodegradable protective wrap, reusable fabric straps, carbon-offset shipping option available
- Delivery Time: 20-30 working days
- Payment Terms: T/T, L/C, Western Union
- Supply Ability: 300 Sets per Month

Product Specification

- Frame Material: 6061-T6 Recyclable Aluminum (70% Post-Consumer Recycled)
- Roof Material: 750g/m² Phthalate-Free PVC-Coated Polyester
- Sidewall Material: 550g/m² Phthalate-Free PVC + Recycled PET Mesh
- Tent Dimensions: 10m X 5m X 3.5m (L X W X H)
- Wind Resistance: Up To 80 Km/h (Beaufort Scale 9)
- Snow Load: 0.3 KN/m²
- UV Protection: UPF 50+
- Temperature Range: -30°C To +70°C
- Fire Retardant: B1 / M2 (EN 13501-1) Halogen-Free
- Printing Method: Water-Based Eco-Solvent Digital (VOC-Free)
- End-of-Life Program: Free Take-Back & 100% Recycling
- Available Colors: Natural White, Sage Green, Earth Brown, Sky Blue

Product Description

Eco-Friendly Recyclable Party Marquee Tent – 10x5m Sustainable Event Canopy for Green European Market

The **PT-ECO-10X5-EU** represents our commitment to sustainable event solutions for environmentally conscious European markets. Engineered with **recyclable aluminum frame**, **phthalate-free PVC fabric**, and **water-based eco-printing** this tent meets the growing demand for green event infrastructure across Europe. From eco-certified music festivals in the Netherlands to sustainable corporate events in Scandinavia, this tent delivers premium performance while minimizing environmental impact. Fully **CE, EN 13782, ISO 14001:2015, and ISO 9001:2015** certified with complete REACH and RoHS compliance.

Technical Specifications

Parameter	Specification
Frame Material	6061-T6 Recyclable Aluminum Alloy (70% Post-Consumer Recycled)
Roof Material	750g/m ² Phthalate-Free PVC-Coated Polyester, UV Stabilized, Recyclable
Sidewall Material	550g/m ² Phthalate-Free PVC-Coated Polyester + Recycled PET Mesh Windows
Tent Dimensions	10m (L) * 5m (W) * 3.5m (H)
Wind Resistance	Up to 80 km/h (Beaufort Scale 9)
Snow Load	0.3 kN/m ²
UV Protection	UPF 50+
Temperature Range	-30°C to +70°C
Fire Retardant	B1 / M2 (EN 13501-1) – Halogen-Free Formula
Printing Method	Water-Based Eco-Solvent Digital Printing (VOC-Free)
Packaging	FSC-Certified Recycled Cardboard, Biodegradable Protective Wrap
End-of-Life Program	Free Take-Back – Return to Us for 100% Material Recovery
Available Colors	Natural White, Sage Green, Earth Brown, Sky Blue, Custom
Setup Time	2 Persons, Approximately 2-3 Hours

Product Advantages & Key Selling Points

Full Lifecycle Sustainability

Every component designed for circular economy: **70% post-consumer recycled aluminum**, phthalate-free PVC fabric, halogen-free fire retardants, and water-based eco-printing. At end-of-life, return your tent through our **free take-back program** for 100% material recovery and recycling.

EU Green Certification Verified

Only tent in its class with **ISO 14001:2015** environmental management certification. Compliant with **EU Green Public Procurement (GPP)** criteria and EU Taxonomy objectives. Essential for winning government and corporate sustainability tenders across Europe.

Performance Without Compromise

Sustainable does not mean inferior. **80 km/h wind resistance**, **0.3 kN/m² snow load**, **UPF 50+ UV protection**, **B1/M2 fire safety**. Your eco-credentials enhance your brand without sacrificing structural integrity or weather protection.

Green Marketing Advantage

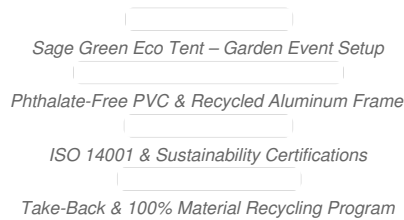

Give European clients a powerful sustainability story. **Co-branded certificates**, carbon footprint reports, and recyclability documentation help event companies win eco-conscious clients and meet corporate ESG reporting requirements.

Certifications & Compliance

Certification	Scope	European Green Market Value
ISO 14001:2015	Environmental management system	Internationally recognized environmental certification. Essential for European sustainability tenders, corporate ESG procurement, and green event supply chains.

Certification	Scope	European Green Market Value
ISO 9001:2015	Quality management system	Consistent manufacturing quality alongside environmental performance. Required by European institutional buyers.
CE + EN 13782	EU safety & structural compliance	Complete EU market access with full safety documentation for event permit applications throughout Europe.
REACH + RoHS	Chemical & hazardous substance compliance	Dual chemical safety certification. Phthalate-free, halogen-free, heavy-metal-free. Exceeds standard EU requirements.
FSC Packaging	Responsible forestry packaging	Packaging from responsibly managed forests. Biodegradable materials replace plastic wrap. Aligned with EU Packaging Directive.

Product Gallery

Sustainability Services & European Market Support

Service	Description
Carbon Footprint Report	Product carbon footprint analysis per ISO 14067 (Cradle-to-Gate). Includes manufacturing emissions, material sourcing impact, and transport carbon data. Helps European clients meet Scope 3 emissions reporting and CSRD obligations.
Free Take-Back & Recycling	End-of-life product stewardship. Return your used tent for 100% material recovery: aluminum smelted and recast, PVC mechanically recycled, polyester fiber reprocessed. Certificate of recycling provided.
Green Event Documentation	Complete sustainability dossier: ISO 14001 certificate, REACH/RoHS statements, FSC packaging certificate, carbon footprint report, recyclability declaration, phthalate-free certification. Helps win green tenders.
Co-Branded Green Marketing	Customizable sustainability marketing kit: co-branded certificates, digital badge assets, tent signage templates, social media content. Help clients promote their commitment to sustainable events.
Green Logistics Options	Carbon-offset shipping via European logistics partners. FSC-certified packaging. Consolidated shipments to reduce per-unit carbon footprint. EU warehouse stock in Rotterdam for low-emission last-mile delivery.

Frequently Asked Questions (FAQ)

Q1: What makes this tent eco-friendly compared to standard party tents?

Four key differences: **(1)** 70% post-consumer recycled aluminum frame reduces embodied carbon by ~60%. **(2)** Phthalate-free PVC fabric with halogen-free fire retardants – safer for health and environment. **(3)** Water-based eco-solvent printing with zero VOC emissions. **(4)** Free end-of-life take-back program ensures 100% material recovery and recycling, avoiding landfill.

Q2: Does the eco-friendly version compromise on quality?

No. The PT-ECO-10X5-EU meets identical performance specs: **80 km/h wind resistance, 0.3 kN/m² snow load, UPF 50+ UV protection, B1/M2 fire safety**. The phthalate-free PVC actually offers better long-term flexibility retention and UV resistance compared to standard formulations.

Q3: How does the take-back and recycling program work?

When your tent reaches end-of-life, contact us for **free collection from any European address**. Aluminum is smelted and recast. PVC fabric is mechanically recycled into new polymer products. Polyester fibers are reprocessed. You receive a **Certificate of Recycling** for your sustainability reporting.

Q4: Is this tent certified for EU green procurement?

Yes. Holds **ISO 14001:2015** certification and meets **EU Green Public Procurement (GPP)** criteria. Aligns with EU

Taxonomy objectives. Complete sustainability dossier provided with every order for tender applications.

Q5: What is the minimum order quantity?

MOQ is **1 set**. We are committed to making sustainable event solutions accessible to all businesses – from individual eco-conscious planners to large festival operators transitioning their entire fleet.

Q6: Do you provide carbon footprint data for ESG reporting?

Yes. Every order includes a **Product Carbon Footprint Report** per ISO 14067 (Cradle-to-Gate). Details CO₂e emissions from raw material extraction through manufacturing and transport. Comparative data shows carbon savings vs. standard tents for Scope 3 emission reporting.

Lead the sustainable event revolution in Europe. Contact our green events team today for a personalized consultation, free carbon footprint report sample, and tailored quotation. Together, we can make European events greener – one tent at a time.
