Product Description

CE EN 13782 Certified Party Marquee Tent for European Market

The Tendars CE EN 13782 certified Party Marquee Tent is engineered specifically for the European market, meeting stringent EU safety and structural standards. Each structure undergoes TUV Rheinland third-party testing to verify wind load resistance up to 100km/h, snow load capacity of 0.5kN/sqm, and overall structural integrity. This certification ensures complete compliance for events, exhibitions, weddings, and commercial applications across all EU member states.

Constructed with hard pressed extruded aluminum alloy 6061 T6 framework and 850g/sqm double coated PVC polyester fabric roofing, this marquee tent delivers exceptional durability and weather protection. The modular clear span design provides column-free interior space, maximizing usable area for any event configuration.

European Compliance Features

CE EN 13782 certified structure with TUV Rheinland test reports available
WELD verification of aluminum frame weld integrity per EN 1090 standards
Full technical documentation package for EU import customs clearance
REACH and RoHS compliant PVC fabric materials
European standard anchor and ballast system included

Ideal for European Applications

Trade fair temporary structures, outdoor wedding venues, corporate event marquees, beer garden covers, Christmas market shelters, and municipal event spaces across Germany, France, Netherlands, UK, and all EU territories.

Available Certificates and Test Reports
