Product Description

Export-Grade Container Loading Party Marquee Tent Packaging System

International shipping demands professional packaging. Our Party Marquee Tent export packaging system has been refined over 10 years of global shipping experience to ensure your products arrive in perfect condition. Every component is protected through a 4-layer packaging system designed to withstand the rigors of ocean freight, customs inspection, and inland transportation.

Each shipment includes a detailed container loading diagram showing exact placement of every pallet and carton, maximizing container space utilization while ensuring weight distribution compliance. All wooden pallets are ISPM 15 heat treated and fumigated with official stamps for customs clearance.

4-Layer Protective Packaging System

Layer 1 - Profile Protection: Each aluminum profile individually wrapped in 3mm bubble film, corners reinforced with cardboard edge protectors

Layer 2 - Fabric Storage: PVC roof and sidewall panels carefully folded with interleaving tissue paper, stored in heavy-duty water-resistant PVC carry bags with desiccant packets

Layer 3 - Hardware Organization: Bolts, nuts, connectors, anchor plates sorted by type in labeled reinforced corrugated carton boxes with foam dividers

Layer 4 - Pallet Consolidation: All components secured on ISPM 15 certified fumigated wooden pallets, wrapped with industrial stretch film, corner boards applied

Shipping and Logistics Information

We coordinate with major shipping lines for competitive freight rates. Documentation package includes: Commercial Invoice, Packing List, Bill of Lading, Certificate of Origin (Form E/F available), ISPM 15 Fumigation Certificate, and CE Certificate copy. We also support customer-nominated forwarders and EXW/FOB/CIF terms.
