

Mediterranean Summer Event Party Marquee Tent Heat Reflective Roof UV Protection Southern European Terrace Canopy Structure

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Tendars
- Certification: UV Tested 5000hr QUV, CE, ISO 9001, B1 Fire Retardant
- Model Number: TDT-MEDITERRANEAN
- Minimum Order Quantity: 25 Square Meters
- Price: USD 35-65 per Square Meter
- Packaging Details: Heat-reflective fabric in UV-protective packaging; ventilated ridge components clearly labeled
- Delivery Time: 10-18 working days
- Payment Terms: T/T, L/C, Western Union
- Supply Ability: 50000 Square Meters per Month

Product Specification

- Roof Color: Bright White Heat Reflective
- UV Protection: 5000hr QUV Titanium Dioxide Stabilized
- Heat Reflection: 80 Percent Solar Reflectance Index
- Ventilation: Ventilated Ridge Plus Optional Gable Vents
- Sidewalls: Removable For Open-air Configuration
- Frame Material: Hard Pressed Extruded Aluminum Alloy 6061 T6
- Highlight: **Mediterranean summer party marquee tent, Heat reflective roof marquee tent, UV protection terrace canopy structure**

Product Description

Mediterranean Summer Event Party Marquee Tent - Heat Reflective Design

Keep guests cool under the Southern European sun. Our Mediterranean Party Marquee Tent features bright white heat-reflective roof fabric with 80% solar reflectance index and maximum UV protection for comfortable terrace dining, beach club events, and summer garden parties.

Mediterranean Summer Performance Specifications

Feature	Performance Specification	Mediterranean Benefit
Solar Reflectance Index	80 percent SRI rating	Reduces interior temperature 8-12 degrees Celsius
UV Protection	5000 hour QUV accelerated aging	5+ year Mediterranean UV exposure
Roof Color	Bright white reflective surface	Maximum solar reflection
Ventilation	Ventilated ridge plus gable vents	Natural convection cooling
Open Configuration	Removable sidewalls option	Sea breeze through ventilation
Fabric Treatment	Anti-fungal ISO 846 certified	Prevents mildew in humid coastal air

Key European Market Features

80% solar reflectance index keeps interior 8-12C cooler than dark roof tents
 Ventilated ridge design creates natural convection airflow through the tent
 Removable sidewalls convert tent to open-air pavilion for sea breeze comfort
 Anti-fungal fabric treatment prevents mildew in Mediterranean coastal humidity
 Bright white aesthetic complements Southern European architectural styles

Frequently Asked Questions

Q: How much cooler is this compared to a standard tent?

A: Field measurements at Spanish Costa del Sol client show interior temperatures 8-12C lower than standard dark roof tents at 35C ambient, without active cooling.

Q: Can the sidewalls be completely removed?

A: Yes. All sidewalls attach with velcro and zipper systems designed for complete removal. The tent converts to an open-air pavilion in approximately 30 minutes.

Q: Does the white roof get dirty quickly?

A: Our glossy lacquer topcoat provides self-cleaning properties. Mediterranean rain washes dust away. For coastal installations near sandy beaches, we recommend annual cleaning with PVC cleaner.
