Key European Market Features

Washable PVC wall surfaces clean in minutes between service periods
 Stainless steel 304 food-grade counters with integrated under-counter storage
 Commercial ventilation port ready for extraction hood connection
 Floor drain with grease trap compatibility for liquid waste management
 HACCP-compliant layout with designated raw, cooking, and serving zones

Frequently Asked Questions

Q: Is this tent compliant with EU food hygiene regulations?

A: Yes. The design meets EU Regulation 852/2004 on food hygiene. Washable surfaces, HACCP-compliant layout, and food-grade materials are standard. Local health authority approval documentation is provided.

Q: Can multiple catering tents be connected for a food court?

A: Yes. Our covered walkway system connects multiple catering tents into a food court configuration with shared seating areas. Popular for European street food markets.

Q: What size do I need for a full commercial kitchen?

A: A 5x8m configuration provides space for cooking line, prep area, and service counter. For larger operations with multiple cooking stations, 8x10m is recommended.
