**Product Description**

**Modular Covered Walkway Connector Party Marquee Tent System**

Connect your European event village seamlessly. Our covered walkway connector system links multiple marquee structures with weathertight 3m wide passageways, integrated lighting, and directional signage - creating a unified event complex where guests move comfortably between spaces.

**Walkway Connector Specifications**

Walkway Feature	Technical Specification	Event Complex Benefit
Walkway Width	3m standard passage	Comfortable two-way guest flow
Connection	Weathertight tent-to-tent seals	No rain between structures
Modular Length	3m sections extendable	Any distance configuration
Lighting	Integrated LED passage lights	Safe illuminated transit
Signage	Directional mounts	Clear guest navigation
Integration	Universal frame connection	Compatible with all tent types

**Key European Market Features**

3m width allows comfortable two-way guest flow between event spaces  
 Weathertight connection seals keep guests dry moving between tents in European rain  
 Modular 3m sections create walkways of any required length  
 Integrated LED lighting ensures safe passage during evening and nighttime events  
 Universal connector compatible with all Tendars marquee tent types and sizes

**Frequently Asked Questions**

**Q: Can the walkway connect tents of different sizes?**

A: Yes. The universal connection system adapts to different eave heights and tent sizes. Adjustable connection panels bridge height differences up to 1.5m between adjacent structures.

**Q: How many tents can be connected in a complex?**

A: There is no practical limit. We have created event complexes with 20+ connected structures. Each connection point is engineered independently for structural load and weather sealing.

**Q: Can walkways be added to existing tent installations?**

A: Yes. Walkways can be retrofitted to existing Tendars tents. Contact us with your current tent specifications for compatibility verification and connection kit ordering.
