Key European Market Features

Retractable roof opens fully for summer sunshine and closes for rain in under 60 seconds
 Dark bronze frame finish complements European restaurant and cafe exterior design
 Integrated dimmable LED ambient lighting creates perfect evening dining atmosphere
 Modular extension allows starting small and expanding as outdoor dining demand grows
 Typical ROI: extended dining season recovers investment within 12-18 months

Frequently Asked Questions

Q: How quickly can the roof be opened or closed?

A: The manual slide system opens or closes the roof in approximately 60 seconds. Motorized electric operation available as an upgrade for push-button convenience.

Q: Does the pergola need planning permission in European cities?

A: Requirements vary by country and municipality. We provide structural documentation and wind load calculations for planning applications. Many cities classify our pergola as temporary demountable structure.

Q: Can heating be added for winter dining?

A: Yes. Infrared heating panels mount to the frame profiles. Combined with optional sidewall panels, the pergola creates a comfortable winter dining terrace extending your outdoor season to 12 months.
