

Latin America Tropical Weather Party Marquee Tent High UV Anti Humidity Brazilian Mercosur Event Canopy Structure

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Tendars
- Certification: ISO 9001, NR 12 Brazilian Safety, Mercosur Customs Documentation, UV 5000h Tested
- Model Number: TDT-LATAM-TROPICAL
- Minimum Order Quantity: 25 Square Meters
- Price: USD 35-65 per Square Meter
- Packaging Details: Anti-mold treated packaging with desiccant; Portuguese Spanish bilingual labeling; fumigation certificate for Brazil customs
- Delivery Time: 25-35 working days sea freight to Santos Callao Valparaiso
- Payment Terms: T/T, L/C, Mercosur trade terms available
- Supply Ability: 50000 Square Meters per Month

Product Specification

- UV Blocking: 98 Percent UV A B Blocking Roof
- Anti Humidity: Anti Mold Anti Mildew Treatment
- Ventilation: Natural Convection Plus Mesh Panels
- Storm Rating: 120km/h Tropical Storm
- Documentation: Portuguese Spanish English Trilingual
- Frame Material: Hard Pressed Extruded Aluminum Alloy 6082 T6
- Highlight: **Latin America party marquee tent, tropical weather event canopy, high UV anti humidity tent**

Product Description

Latin America Tropical Weather Party Marquee Tent

Designed for the intense sun, humidity, and sudden tropical storms of Latin America. Our Party Marquee Tent features 98% UV blocking roof fabric, anti-mold treatment for humid climates, integrated mesh ventilation panels, and 120km/h tropical storm rating — with complete Portuguese, Spanish, and English documentation for seamless Mercosur trade.

Latin America Market Certifications & Compliance

Requirement	Standard	Scope	Market
NR 12 Machine Safety	Brazilian Regulatory Standard NR 12	Structural safety operational	Brazil mandatory
NOM Compliance	Norma Oficial Mexicana	Electrical safety labeling	Mexico mandatory
Mercosur Certificate	Certificate of Origin Mercosur	Customs duty preference	Argentina Brazil Paraguay Uruguay
INMETRO	Brazilian product certification	Electrical components	Brazil electrical
RETIE	Colombian electrical regulation	Electrical safety	Colombia mandatory

Tropical Grade PVC Fabric — UV & Humidity Performance

Parameter	Test Method	Tropical Grade Value	Benefit for Latin America
UVA Blocking	AS NZS 4399 UPF Rating	98 percent UVA UVB block UPF 50 plus	Protection from intense equatorial sun
UV Aging Resistance	ASTM G154 Xenon 5000 hours	Grade 4 plus no significant degradation	5 plus years in tropical sun exposure
Anti Mold Treatment	ASTM G21 Fungus Resistance	Rating 0 no fungal growth	Amazon coastal humidity 90 percent plus
Anti Mildew Coating	Internal Test Chamber 45°C 95%RH	Zero mildew after 1000 hours continuous	Rainy season wet storage protection
Water Column Rating	ASTM D751 Hydrostatic	2500 mm water column	Tropical downpour waterproof
Heat Reflection	Solar Reflectance Index ASTM E1980	SRI 85 plus white roof	Interior 8-12°C cooler than outside

Frequently Asked Questions — Latin America Markets

Q: Como lidar com a burocracia alfandegaria no Brasil? (Brazil customs)

A: We provide complete Mercosur Certificate of Origin documentation, commercial invoice in Portuguese with NCM codes, and packing list with RADAR compliance. Our logistics partners handle the full DI (Declaracao de Importacao) process. Typical Brazil customs clearance: 7-14 days.

Q: Will the tent survive a tropical thunderstorm in Cancun or Rio?

A: Yes. Our 120km/h storm rating handles sudden tropical downpours. The 2500mm water column fabric and integrated drainage design ensure interior stays dry. For coastal resort installations, we add additional stainless steel hardware for salt spray resistance.

Q: How does the anti-mold treatment work in Amazon humidity?

A: Our PVC fabric undergoes a dual treatment: the base polymer contains anti-fungal compounds, and the surface coating includes anti-mildew biocides. In ASTM G21 testing (28 days at 30°C, 95% humidity), our fabric achieves Rating 0 — zero fungal growth. We recommend periodic surface cleaning every 6 months in extreme humidity zones.
