| Bay Width        | 3m / 10FT Modular Bays for Length Extension                        |

## Product Advantages & Selling Points

**Clear Span Elegance:** No interior support poles – panoramic views through crystal-clear PVC sidewalls, perfect for vineyard weddings in Napa Valley or beachfront ceremonies in Cancún.

**Americas Luxury Market Ready:** Cathedral peak design matches the architectural preferences of high-end US and Latin American wedding venues.

**Rapid Luxury Deployment:** Professional 4-person crew can erect in 4 hours – faster than traditional permanent structures.

**Climate Versatility:** Optional insulated double-layer roof for Canadian winter weddings or air-conditioned summer events in Miami/Caribbean.

**Full Customization:** Draping, chandelier mounting points, custom color sidewalls, and branded entrance solutions available.

**Investment Payback:** Typical ROI within 8-12 events for American wedding rental companies.

## Certificates & Test Reports

| Certificate   | Scope                                | Status    |
|---------------|--------------------------------------|-----------|
| ISO 9001:2015 | Quality Management System            | Valid     |
| TÜV Rheinland | Structural Engineering Assessment    | Passed    |
| SGS Fire Test | B1/M2 Fire Rating for PVC & Textiles | Passed    |
| ANSI E1.21    | US Temporary Structure Standard      | Compliant |
| ASTM F2955    | US Tent Fire & Safety Test           | Compliant |

## Factory & Enterprise Strength

**Luxury Division:** Dedicated production line for high-end event tents with specialized sewing, welding, and finishing equipment

**Installation Network:** Certified installation partners in 12 US states and 5 Latin American countries

**Portfolio:** Supplied luxury tents to destination weddings in Tuscany, Bali, Napa, Riviera Maya, and Patagonia

**Engineering Support:** In-house structural engineers provide site-specific wind/snow load calculations for North & South American locations

## Application Cases

| Event                | Location                | Detail   |
|----------------------|-------------------------|--|
| Destination Wedding  | Napa Valley, CA, USA    | 2x 20x60FT clear span tents for 300-guest vineyard wedding           |
| Beachfront Gala      | Riviera Maya, Mexico    | 5x 20x40FT connected luxury tents for 500-guest corporate gala       |
| Polo Club VIP Lounge | Buenos Aires, Argentina | 3x luxury tents with hardwood flooring for annual polo championship  |
| Charity Gala         | São Paulo, Brazil       | 1x 20x60FT tent with chandeliers and air conditioning for 400 guests |

## Packaging & Logistics

| Aspect        | Details  |

## European Market Specification

| Standard    | Requirement                 | Status     |
|-------------|-----------------------------|------------|
| EN 13782    | Temporary Structures Safety | Compliant  |
| DIN 4102-B1 | Fire Classification         | B1 Rated   |
| Eurocode 1  | Wind & Snow Load Actions    | Calculated |

## FAQ

### Q1: Can this tent withstand strong winds at US coastal wedding venues?

Yes, the clear span frame is engineered to withstand 100km/h winds with our full ground anchoring system. We provide site-specific wind load calculations for your exact venue location at no extra cost.

### Q2: Do you offer installation services in the United States and South America?

We have certified installation partners across the US (CA, TX, FL, NY, IL, and 7 other states) and Latin America (Mexico, Brazil, Colombia, Argentina, Chile). We can either supervise your crew or provide a turnkey installation.

### Q3: What is the typical ROI timeline for a wedding rental company?

Most US rental companies achieve full ROI within 8-12 events. At an average rental rate of \$2,500-4,500 per weekend for a 20x40FT luxury tent, the payback period is typically 6-8 months with regular bookings.
