

Elegant Garden Party Marquee Tent Aluminium Frame Ivory Canopy Panoramic Windows French Outdoor Reception

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: ECO TENT
- Certification: TUV Rheinland, ISO 9001:2015, M1/M2 NF P 92-507, DIN 4102 B1
- Model Number: ET-EL-FR
- Minimum Order Quantity: 10 Sets
- Price: USD 900-2800 / Set
- Packaging Details: Aluminium frame in foam-wrapped bundles with export cartons; PVC fabric in protective woven bags; all on fumigated plywood pallets
- Delivery Time: 15-25 Days Production, 25-30 Days Sea Freight to France
- Payment Terms: T/T, L/C at sight, PayPal, Western Union
- Supply Ability: 500 Sets per Month

Product Specification

- Frame Material: Aluminium Alloy 6061-T6, Anodised
- Frame Finish: Champagne Anodised
- Roof Fabric: 850 G/m² PVC, Ivory White
- Sidewall Fabric: 650 G/m² PVC, Panoramic Windows
- Waterproof: 100% Waterproof, Double Sealed
- Gutter System: Integrated PVC Gutter & Downpipes
- Wind Resistance: Up To 80 Km/h
- Fire Certification: M1/M2 NF P 92-507, DIN 4102 B1
- Frame Warranty: 5 Years
- Fabric Warranty: 3 Years
- Highlight: **elegant garden party marquee tent, aluminium frame ivory canopy tent, panoramic windows french outdoor tent**

Product Description

Product Description

Our **Elegant Garden Party Marquee Tent** is crafted for the discerning French event market. Combining elegant aesthetics with robust engineering, this marquee tent features a premium aluminium alloy frame, luxurious PVC fabric, and meticulous finishing that complements the sophistication of French outdoor events—from vineyard weddings in Bordeaux to garden receptions in Provence and corporate salons in Paris.

Key Features & Advantages

100% Waterproof Construction: Double heat-sealed seams with integrated gutter system provide absolute rain protection, essential for the varied French climate from Atlantic coastal showers to Mediterranean autumn downpours.

Élégance Française Design: Clean architectural lines, premium anodised frame finish, and soft ivory fabric tones create a refined aesthetic that complements château gardens, vineyard settings, and luxury event venues across France.

Aluminium Alloy 6061-T6 Frame: Lightweight yet exceptionally strong with superior corrosion resistance, ideal for humid river valleys, coastal Corsica, and the damp conditions of northern France.

French Fire Safety Compliance: PVC fabric certified to M1/M2 French fire safety standards (NF P 92-507) alongside DIN 4102 B1 and BS 7837, fully compliant with French ERP (Établissement Recevant du Public) regulations.

UV-Stabilised Fabric: Premium UV-resistant PVC fabric protects guests and furnishings during intense Mediterranean summer sunshine while maintaining colourfast appearance season after season.

Modular Expandable Design: Multiple tent units connect seamlessly for large-scale events—perfect for French wedding banquets, wine festivals, and corporate receptions requiring expansive covered spaces.

Quick Assembly System: Slip-fit connector technology enables rapid installation by small teams, reducing labour costs for French événementiel companies and location agencies.

TUV Certified Quality: Full TUV Rheinland certification covering structural integrity, material quality, and load-bearing capacity—trusted by European event professionals.

French Garden Aesthetic: Champagne anodised frame finish with ivory white PVC canopy and panoramic clear windows creates a luminous, sophisticated atmosphere perfect for French garden parties, château receptions, and luxury outdoor dining.

ERP-Compliant Fire Safety: M1/M2 French fire certification (NF P 92-507) ensures full compliance with French ERP regulations for public venues, giving event organisers complete peace of mind.

Technical Specifications

Parameter	Specification
Frame Material	Aluminium Alloy 6061-T6, Anodised Champagne Finish
Roof Fabric	850 g/m ² Premium PVC, UV-Stabilised, Ivory White
Sidewall Fabric	650 g/m ² PVC with Panoramic Clear Window Panels
Waterproof Rating	100% Waterproof — Double Heat-Sealed Seams
Rain Gutter System	Integrated PVC Gutter Channels with Decorative Downpipes
Wind Resistance	Up to 80 km/h with Proper Anchoring
Fire Certification	M1/M2 (NF P 92-507), DIN 4102 B1
Temperature Range	-20°C to +70°C
Connector Type	Hot-Dip Galvanised Steel, 3-Way & 4-Way Fittings
Warranty	5 Years Frame / 3 Years Fabric

Production Process & Quality Control

Manufacturing Excellence

Our 15,000 m² factory is equipped with advanced **CNC machining centres** for precision aluminium frame cutting and drilling, ensuring tolerances within ±0.5mm. Production lines include:

CNC Aluminium Profile Cutting Machines — High-precision automated cutting with digital calibration

CNC Drilling & Tapping Centres — Micron-level accuracy for connector assemblies

High-Frequency PVC Welding Machines — Industrial-grade heat sealing for waterproof panels

Automated Fabric Cutting Tables — CNC-controlled for consistent dimensions

Steel Connector Stamping Lines — Precision hot-dip galvanised steel fittings

Quality Control Journey

Incoming Material Inspection: Aluminium profiles tested for alloy composition and tensile strength per EN standards

In-Process QC: Dimensional checks at each stage using calibrated digital instruments

Frame Pre-Assembly Test: Complete frame assembly to verify structural integrity

Waterproof Testing: 24-hour continuous water spray test on sampled panels

Wind Load Simulation: Structural testing to verify wind resistance ratings

UV Accelerated Ageing Test: 500-hour QUV testing for long-term durability

Final Inspection: Comprehensive checklist before packaging and export

Company Strength & Factory Overview

Industry Experience	10+ Years specialising in marquee tent manufacturing and European export
Factory Size	15,000 m² production facility with 3 dedicated assembly lines
Production Capacity	500+ Marquee Tents per Month
CNC Equipment	8 CNC Machining Centres for precision aluminium processing
Skilled Workforce	80+ employees including 12 QC specialists and 8 R&D engineers
Export Markets	France, United Kingdom, Europe, Australia, New Zealand, Middle East, Africa
Annual Export Volume	3,000+ containers shipped globally

Certifications & Test Reports

Certificate	Scope	Status
TUV Rheinland	Structural safety, material quality, and load-bearing capacity	✓ Valid
ISO 9001:2015	Quality Management System — design, manufacturing, delivery	✓ Valid
M1 / M2 (NF P 92-507)	French fire safety classification for building and furnishing materials	✓ Compliant
DIN 4102 B1 / M2	German fire retardancy certification for textile materials	✓ Valid
UV Ageing Test Report	500-hour QUV accelerated ageing — 95% tensile strength retention	Available on request
Wind Load Test Report	Structural wind resistance verified with proper anchoring	Available on request
Waterproof Test Report	24-hour continuous water spray with zero leakage	Available on request

Packaging & Shipping

Frame Packaging	Aluminium frame sections wrapped in protective foam film, packed in reinforced export-grade corrugated cartons with fumigated plywood pallet base
Fabric Packaging	PVC roof and sidewall panels folded with protective interleaving, packed in heavy-duty woven poly bags
Accessories	Steel stakes, tension ropes, and connectors packed separately in clearly labelled cartons
Shipping Method	FCL or LCL sea freight to French ports: Le Havre, Marseille-Fos, Dunkerque, Nantes Saint-Nazaire, Bordeaux
Delivery Time	15-25 days production + 25-30 days sea freight to France

Pre-Sales Service

Consultation Gratuite	Our expert team advises on the ideal tent size, configuration, and accessories for your specific event type and venue conditions in France
Design Sur Mesure	CAD drawings provided for custom configurations; RAL colour matching and logo printing available for French corporate branding
Sample Service	Fabric swatches and aluminium profile samples shipped within 3 working days via DHL Express to French addresses
Devis Détaillé	Detailed itemised quotation including CIF French port pricing within 24 hours of inquiry
Virtual Factory Tour	Live video tour of production lines and QC processes via Zoom/Teams

After-Sales Service & Warranty

Service	Details
Warranty Period	5-Year Comprehensive Warranty on aluminium frame structure against manufacturing defects

Service	Details
PVC Fabric Warranty	3-Year warranty on PVC roof and sidewall fabric against UV degradation and waterproof failure
Pièces Détachées	Free replacement parts dispatched within 7 days for any warranty-covered defect, express shipping to France
Support Technique	24/7 online support via email and video call; assembly guidance and troubleshooting in English and French documentation
Setup Training	Detailed assembly manual with step-by-step photographs; video tutorial link included
Replacement Guarantee	Any component found defective upon arrival replaced free of charge including return shipping to any French address

Frequently Asked Questions (FAQ)

Q1: Are these marquee tents compliant with French fire safety regulations (ERP)?

A: Yes. Our PVC fabric is certified to M1/M2 French fire safety standards (NF P 92-507), fully compliant with French ERP (Etablissement Recevant du Public) regulations for temporary structures and event venues.

Q2: Is the tent suitable for French climate conditions across different regions?

A: Absolutely. Our tents perform excellently across all French climates—from Mediterranean heat in Provence and the Côte d'Azur to Atlantic rain in Brittany and Normandy, and continental conditions in Alsace and Rhône-Alpes.

Q3: What is included in the 5-year warranty?

A: Our 5-year warranty covers all aluminium frame structural components against manufacturing defects. PVC fabric is covered for 3 years against UV degradation and waterproof failure. Free replacement parts shipped within 7 days to any French address.

Q4: Can I customise the colour to match our French wedding or corporate theme?

A: Yes, we offer full customisation including RAL colour matching, ivory and champagne tones popular for French weddings, and UV-resistant digital printing for logos on roof and sidewalls. Free CAD design proof provided.

Q5: What is the minimum order quantity (MOQ)?

A: Standard MOQ is 10 sets per configuration. For first-time French buyers, we accommodate trial orders of 5 sets to evaluate our quality before larger commitments.

Q6: How long does shipping take to France?

A: Production takes 15-25 days. Sea freight to major French ports (Le Havre, Marseille-Fos, Dunkerque, Nantes, Bordeaux) takes approximately 25-30 days. Total lead time is typically 40-55 days.

Q7: Do you provide assembly instructions in French?

A: Every order includes a detailed printed assembly manual with step-by-step photographs. Documentation is available in English, and French translations are provided for key technical specifications. Video tutorials are included.

Q8: Can I visit your factory?

A: We warmly welcome French buyers to visit our factory in Guangdong, China. Virtual factory tours via video call are also available where we walk you through our CNC machining centres, production lines, and QC processes.

Q9: What payment terms do you accept?

A: We accept T/T (30% deposit, 70% balance before shipment), L/C at sight, and for smaller orders, PayPal and Western Union. For established French partners, flexible terms can be arranged.

Q10: Are spare parts available for purchase in France?

A: Yes, we maintain a comprehensive spare parts inventory. Spare parts are available for purchase at any time with express shipping to France, typically arriving within 5-7 working days.
