

Heavy Duty Festival Party Marquee Tent Reinforced Aluminium Frame Storm Anchor Italian Music Wine Event Shelter

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: ECO TENT
- Certification: TUV Rheinland, ISO 9001:2015, Classe 1 UNI 9177/8456, DIN 4102 B1
- Model Number: ET-HD-FESTIT
- Minimum Order Quantity: 10 Sets
- Price: USD 1200-3800 / Set
- Packaging Details: Reinforced aluminium frame in foam-wrapped bundles; heavy PVC fabric in industrial woven bags; steel connectors in labelled cartons; on fumigated plywood pallets
- Delivery Time: 15-25 Days Production, 25-30 Days Sea Freight to Italy
- Payment Terms: T/T, L/C at sight, PayPal, Western Union
- Supply Ability: 300 Sets per Month

Product Specification

- Frame Material: Reinforced Aluminium Alloy 6061-T6
- Frame Tube: 64 Mm X 2 Mm Wall
- Roof Fabric: 900 G/m² Heavy-Duty PVC, Anti-Mildew
- Sidewall Fabric: 650 G/m² PVC, Zipped Windows
- Wind Resistance: Up To 100 Km/h
- Snow Load: 15 Kg/m²
- Cross Bracing: Dual Steel Cable System
- Modular Expansion: Unlimited Via Gutter System
- Fire Certification: Classe 1 UNI 9177/8456, DIN 4102 B1
- Frame Warranty: 5 Years
- Fabric Warranty: 3 Years
- Highlight: **heavy duty festival marquee tent, reinforced aluminium frame party tent, storm anchor event shelter tent**

Product Description

Product Description

Our **Heavy Duty Festival Party Marquee Tent** is designed for the sophisticated Italian event market. Combining timeless Italian elegance with precision engineering, this marquee tent features a premium aluminium alloy frame, luxurious PVC fabric, and refined finishing that harmonises with the beauty of Italian outdoor venues—from Tuscan countryside weddings to Lake Como receptions, Amalfi Coast celebrations, and Milan fashion events.

Key Features & Advantages

Eleganza Italiana Design: Clean architectural lines, premium anodised frame finishes, and soft neutral fabric tones create a refined aesthetic that complements villa gardens, historic courtyards, vineyard settings, and luxury event venues across Italy.

100% Waterproof Construction: Double heat-sealed seams with integrated gutter system provide absolute rain protection, essential for sudden Mediterranean thunderstorms and northern Italian autumn rainfall.

Aluminium Alloy 6061-T6 Frame: Lightweight yet exceptionally strong with superior corrosion resistance, ideal for humid coastal venues on the Amalfi Coast, Ligurian Riviera, and Venetian lagoon.

Italian Fire Safety Compliance: PVC fabric certified to Italian Classe 1 (UNI 9177 / UNI 8456) fire reaction standards alongside DIN 4102 B1, fully compliant with Italian safety regulations for public event venues.

UV-Stabilised Fabric: Premium UV-resistant PVC fabric protects guests from intense Mediterranean summer sunshine while resisting colour fading season after season—perfect for events from Sicily to the Dolomites.

Modular Expandable Design: Multiple tent units connect seamlessly for large-scale Italian weddings, sagre, corporate galas, and festival banquets requiring expansive covered spaces.

Quick Assembly System: Slip-fit connector technology enables rapid installation by small teams, reducing labour costs for Italian event agencies and catering companies.

TUV Certified Quality: Full TUV Rheinland certification covering structural integrity, material quality, and load-bearing capacity—trusted by European event professionals across Italy.

100 km/h Rated for Italian Festivals: Reinforced 64 mm frame tubes, dual diagonal steel cable cross-bracing, and storm anchor kit provide exceptional stability for multi-day Italian music festivals, sagre, outdoor wine fairs, and mountain events in all weather conditions.

Anti-Mildew & Classe 1 Fire Safe: 900 g/m² anti-mildew treated PVC fabric with Classe 1 Italian fire certification ensures compliance with the strictest Italian festival safety regulations while maintaining clean appearance throughout extended outdoor summer seasons.

Technical Specifications

Parameter	Specification
Frame Material	Reinforced Aluminium Alloy 6061-T6, Double Anodised
Frame Tube	64 mm Diameter × 2 mm Wall Thickness
Roof Fabric	900 g/m ² Heavy-Duty PVC, UV-Stabilised, Anti-Mildew
Sidewall Fabric	650 g/m ² PVC with Reinforced Zipped Windows
Waterproof Rating	100% Waterproof — Triple Heat-Sealed Seams
Wind Resistance	Up to 100 km/h with Storm Anchor Kit
Snow Load	15 kg/m ² (Suitable for Alpine/Mountain Events)
Cross Bracing	Dual Diagonal Steel Cable Cross-Bracing System
Modular Connection	Heavy-Duty Multi-Unit Gutter Connection, Unlimited
Fire Certification	Classe 1 (UNI 9177/8456), DIN 4102 B1
Warranty	5 Years Frame / 3 Years Fabric

Production Process & Quality Control

Manufacturing Excellence

Our 15,000 m² factory is equipped with advanced **CNC machining centres** for precision aluminium frame cutting and drilling, ensuring tolerances within ±0.5mm. Production lines include:

CNC Aluminium Profile Cutting Machines — High-precision automated cutting with digital calibration

CNC Drilling & Tapping Centres — Micron-level accuracy for connector assemblies

High-Frequency PVC Welding Machines — Industrial-grade heat sealing for waterproof panels

Automated Fabric Cutting Tables — CNC-controlled for consistent panel dimensions

Steel Connector Stamping Lines — Precision hot-dip galvanised steel fittings

Quality Control Journey

Incoming Material Inspection: Aluminium profiles tested for alloy composition and tensile strength per EN standards

In-Process QC: Dimensional checks at each stage using calibrated digital instruments

Frame Pre-Assembly Test: Complete frame assembly to verify fit, alignment, and structural stability

Waterproof Testing: 24-hour continuous water spray test on sampled roof panels

Wind Load Simulation: Structural testing to verify wind resistance ratings with safety margin

UV Accelerated Ageing Test: 500-hour QUV testing for long-term Mediterranean sun durability

Final Inspection: Comprehensive checklist review before packaging and export shipment

Company Strength & Factory Overview

Industry Experience	10+ Years specialising in marquee tent manufacturing and European export
Factory Size	15,000 m² production facility with 3 dedicated assembly lines
Production Capacity	500+ Marquee Tents per Month
CNC Equipment	8 CNC Machining Centres for precision aluminium processing
Skilled Workforce	80+ employees including 12 QC specialists and 8 R&D engineers
Export Markets	Italy, France, United Kingdom, Europe, Australia, New Zealand, Middle East
Annual Export Volume	3,000+ containers shipped globally

Certifications & Test Reports

Certificate	Scope	Status
TUV Rheinland	Structural safety, material quality, and load-bearing capacity	✓ Valid
ISO 9001:2015	Quality Management System — design, manufacturing, delivery	✓ Valid
Classe 1 (UNI 9177/8456)	Italian fire reaction classification for furnishing and tent materials	✓ Compliant
DIN 4102 B1 / M2	German fire retardancy certification for textile materials	✓ Valid
UV Ageing Test Report	500-hour QUV accelerated ageing — 95% tensile strength retention	Available on request
Wind Load Test Report	Structural wind resistance verified with proper anchoring	Available on request
Waterproof Test Report	24-hour continuous water spray with zero leakage	Available on request

Packaging & Shipping

Frame Packaging	Aluminium frame sections wrapped in protective foam film, packed in reinforced export-grade corrugated cartons with fumigated plywood pallet base
Fabric Packaging	PVC roof and sidewall panels folded with protective interleaving, packed in heavy-duty woven poly bags
Accessories	Steel stakes, tension ropes, and connectors packed separately in clearly labelled cartons
Shipping Method	FCL or LCL sea freight to Italian ports: Genova, Napoli, Livorno, Venezia, Trieste, Gioia Tauro
Delivery Time	15-25 days production + 25-30 days sea freight to Italy

Pre-Sales Service

Consulenza Gratuita	Our expert team advises on the ideal tent size, configuration, and accessories for your specific Italian venue and event type
Design Personalizzato	CAD drawings provided for custom configurations; RAL colour matching and logo printing available for Italian corporate branding
Campioni Disponibili	Fabric swatches and aluminium profile samples shipped within 3 working days via DHL Express to Italian addresses
Preventivo Dettagliato	Detailed itemised quotation including CIF Italian port pricing within 24 hours of inquiry
Virtual Factory Tour	Live video tour of production lines and QC processes via Zoom/Teams at your convenience

After-Sales Service & Warranty

Servizio	Dettagli
Garanzia	5-Year Comprehensive Warranty on aluminium frame structure against manufacturing defects
Garanzia Tessuto PVC	3-Year warranty on PVC roof and sidewall fabric against UV degradation and waterproof failure
Ricambi	Free replacement parts dispatched within 7 days for any warranty-covered defect, express shipping to Italy
Supporto Tecnico	24/7 online support via email and video call; assembly guidance and documentation in English and Italian
Formazione Montaggio	Detailed assembly manual with step-by-step photographs; video tutorial link included with every order
Garanzia di Sostituzione	Any component found defective upon arrival replaced free of charge including return shipping to any Italian address

Frequently Asked Questions (FAQ)

Q1: Are these marquee tents compliant with Italian fire safety regulations?

A: Yes. Our PVC fabric is certified to Classe 1 Italian fire reaction standards (UNI 9177 / UNI 8456), fully compliant with Italian safety regulations for public event venues, matrimoni, and sagre across all regions.

Q2: Are the tents suitable for the diverse Italian climate?

A: Absolutely. Our tents perform excellently across all Italian climate zones—from Mediterranean summer heat in Sicily and Puglia to alpine freshness in the Dolomites, coastal humidity on the Amalfi Coast, and lake breezes at Lago di Como and Lago di Garda.

Q3: What is included in the 5-year warranty?

A: Our 5-year warranty covers all aluminium frame structural components against manufacturing defects. PVC fabric is covered for 3 years against UV degradation and waterproof failure. Free replacement parts shipped within 7 days to any Italian address.

Q4: Can I customise the colour to match our Italian wedding theme?

A: Yes, we offer full customisation including RAL colour matching, ivory and cream tones popular for Italian matrimoni, and UV-resistant digital printing for logos. Free CAD design proof provided before production.

Q5: What is the minimum order quantity (MOQ)?

A: Standard MOQ is 10 sets per configuration. For first-time Italian buyers, we accommodate trial orders of 5 sets to evaluate our quality before larger commitments.

Q6: How long does shipping take to Italy?

A: Production takes 15-25 days. Sea freight to major Italian ports (Genova, Napoli, Livorno, Venezia, Trieste, Gioia Tauro) takes approximately 25-30 days. Total lead time is typically 40-55 days from order confirmation.

Q7: Do you provide assembly instructions in Italian?

A: Every order includes a detailed printed assembly manual with step-by-step photographs. Documentation is available in English with Italian translations for key technical specifications. Video tutorials are included with every order.

Q8: Can I visit your factory?

A: We warmly welcome Italian buyers to visit our factory in Guangdong, China. Virtual factory tours via video call are also available, walking you through our CNC machining centres, production lines, and QC processes.

Q9: What payment terms do you accept?

A: We accept T/T (30% deposit, 70% balance before shipment), L/C at sight, and for smaller orders, PayPal and Western Union. For established Italian partners, flexible payment terms can be discussed.

Q10: Are spare parts available for purchase in Italy?

A: Yes, we maintain a comprehensive spare parts inventory. Spare parts are available for purchase at any time with express shipping to Italy, typically arriving within 5-7 working days.

Italian Festival Applications

Tipo di Festival	Configurazione Raccomandata
Festival Musicale	Multi-unit connected for VIP lounges, backstage, artist green rooms, and merchandise areas
Sagra / Festa di Paese	Open sidewall configuration for food stalls, wine tasting, and community dining with natural airflow
Fiera del Vino	Connected units with clear windows for wine producer stands, tasting areas, and enogastronomic displays
Evento Alpino / Montano	Insulated configuration with 15 kg/m ² snow load and heating ports for Dolomiti winter events
Mercatino di Natale	Clear window panels for product display, integrated LED lighting, and dedicated heating ports
