## Frequently Asked Questions (FAQ)

### Q1: How fast can this tent be set up at a Dutch market or festival?

A: Our pop-up mechanism allows 2 people to fully deploy the tent in under 15 minutes. This is significantly faster than traditional pole tents, making it ideal for Dutch weekend markets and festival rotations.

### Q2: Is the tent stable in Dutch windy conditions?

A: Yes, the auto-lock frame joints combined with the included ground anchoring system provide stability up to 90 km/h winds. We recommend using all anchor points, especially in coastal areas like Den Haag and Rotterdam.

### Q3: What is included in the standard package?

A: Each set includes: aluminum pop-up frame, PVC roof cover, 4 sidewalls with windows, ground anchors, wheeled transport bag, assembly tools, and a detailed instruction manual.

### Q4: Can I use this tent year-round in the Netherlands?

A: Absolutely. The anodized aluminum frame resists corrosion from rain and humidity, while the rip-stop PVC cover handles both summer UV exposure and winter moisture. Suitable for all four Dutch seasons.

### Q5: Do you provide spare parts for the Dutch market?

A: Yes, we maintain a comprehensive spare parts inventory. Common replacement parts can be dispatched to the Netherlands within 7 working days via express courier.
